## INTRODUCTION: PURPOSE, SCOPE AND RESPONSIBILITIES

The Washington Unified School District (WUSD) is committed to maintaining a safe work environment that reflects guidance from federal, state, and local public health officials to mitigate the spread of

COVID-19. While testing and vaccines are widely available, we must continue to practice strategies to decrease the spread of COVID-19. Together, our actions contribute to the wellness of our schools and community as a whole and protect the most fragile and high-risk individuals around us.

This COVID-19 Health and Safety Guidelines is designed by Fresno County Superintendent of Schools and WUSD to set forth standards and protocols for the safety and well-being of WUSD employees, students and any other persons accessing WUSD offices and school settings. Its contents are to be implemented organization-wide and utilized in conjunction with department/program site-specific plans.

This document serves as the WUSD COVID-19 Health and Safety Guidelines and Cal/OSHA COVID-19 Prevention Program (CPP). In addition, this document and related site plans serves as the Elementary and Secondary School Emergency Relief Fund (ESSER III) Safe Return to In-person Instruction Local Education Agency (LEA) plan. This document was developed with the most current information known at the time and may be amended as guidance from federal, state and local agencies change.

When you have COVID-19 related questions, contact the following:

### **To Report COVID-19 Related Illness**

*Promptly notify your immediate Sophia Rizzo, Ed.D., Assistant Superintendent*

Email: [sophia.rizzo@wusd.ws](mailto:sophia.rizzo@wusd.ws)

Phone: (559) 495-5610

### **To Ask COVID-19 Testing Related Questions**

*Sophia Rizzo, Ed.D., Assistant Superintendent*

Email: [sophia.rizzo@wusd.ws](mailto:sophia.rizzo@wusd.ws)

Phone: (559) 495-5610

All employees are expected to adhere to the standards and protocols contained in this document. All supervisors and managers are responsible to implement and enforce all aspects of this document.

## **DEFINITIONS**

**Close Contact:** A person sharing the same indoor airspace with a positive person for more than 15 minutes (cumulative per day) during the person's infectious period, regardless of whether person(s) is wearing a mask or vaccination status.

**Common area:** Common areas include all areas of the building accessed by the public or staff members for shared purposes, including lobbies and waiting areas, meeting rooms, hallways, restrooms and break rooms, and elevators.

**Contact Tracing:** Contact tracing is a process used by the public health department to slow the spread of infectious disease. A contact tracer helps identify people who may have had close contact with a COVID-19 positive patient and gives close contacts information on how to get care and treatment, and how to self-isolate, if needed.

**Fully Vaccinated:** People are considered fully vaccinated for COVID-19 when it is two weeks or more after they have received the second dose in a 2-dose series (Pfizer-BioNTech or Moderna), or two weeks or more after they have received a single-dose vaccine (Johnson and Johnson [J&J]/Janssen).

**Isolation:** Separates infected people with a contagious disease from people who are not sick.

**Index Case:** A person with a positive COVID-19 test.

**Infectious Period:** For symptomatic infected persons, 2 days before the infected person had any symptoms through Day 10 after symptoms first appeared (or through Days 5-10 if testing negative on Day 5 or later), and 24 hours have passed with no fever, without the use of fever-reducing medications, and symptoms have improved, OR

For asymptomatic infected persons, 2 days before the positive specimen collection date through Day 10 after positive specimen collection date (or through Days 5-10 if testing negative on Day 5 or later) after specimen collection date for their first positive COVID-19 test.

For the purposes of identifying close contacts and exposures, infected persons who test negative on or after Day 5 and end isolation, in accordance with this guidance, are no longer considered to be within their infectious period. Such persons should continue to follow CDPH isolation recommendations, including wearing a well-fitting face mask through Day 10.

**Outbreak:** According to CalOSHA, three (3) or more COVID-19 cases in an “exposed workplace” within a 14-day period or identified as an outbreak by a local health department. According to FCDPH, an outbreak occurs when positive cases reach 10% an airspace.

**Physical distancing:** According to the CDC, physical distancing means keeping space between yourself and other people outside of your home by staying at least six feet (about two arm’s length) from other people and staying out of crowded places and avoiding mass gatherings. Also known as Social Distancing.

**Quarantine:** Separates individuals who are close contacts of a confirmed COVID-19 positive case but who are not yet ill. Refer to the “Return to Work/School After Illness Protocol: Students and Staff” section of this toolkit for quarantine/isolation periods.

**Social Distancing:** \*See Physical distancing.

## PROTECTION GUIDELINES

**Purpose:** To identify the employer and employee responsibilities to maintain a safe work environment for staff and students.

### **Employer Responsibilities:**

- Extend grace and civility to all those you interact with while in the workplace
- Implement daily self-monitoring health screening processes for staff and students
- Provide face coverings (including N95) to WUSD employees and students
- Provide cleaning supplies for WUSD employees
- Post additional signage throughout WUSD buildings and worksites to raise awareness regarding health and safety protocols
- Ensure routine cleaning of frequently touched surfaces
- Identify and evaluate COVID-19 hazards and investigate, respond, and correct these hazards in the workplace by utilizing the Injury and Illness Prevention Program (IIPP)
- When required, have COVID-19 testing available for staff and students
- Place appropriate signage throughout facilities informing of appropriate COVID-19 protocols including hand hygiene
- Allow time for hand hygiene and provide facilities for hand washing or sanitizing

### **Employee Responsibilities:**

- Extend grace and civility to all those you interact with while in the workplace
- Self-certify your health daily
- When required, wear face covering in accordance with the Facial Covering Protocol
- Practice hand hygiene. Wash hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating and after blowing your nose, coughing or sneezing; if soap and water are not available, use an alcohol-based (60% or higher) hand sanitizer
- Avoid touching eyes, nose and mouth with unwashed hands
- If you are ill, stay home, except to get medical care, utilize your leave entitlements and return to work when symptom-free
- Cover your cough with a tissue or cough into your sleeve; throw tissue in the trash after use
- Maintain a clutter-free work surface and workstation for efficient and regular cleaning

## COVID-19 TESTING

**Purpose:** To provide COVID-19 testing to staff and students and to monitor the prevalence of COVID-19 in WUSD schools in accordance with local, state and federal regulatory requirements. This testing plan meets the requirements set forth by SB 1479.

Per California Department of Public Health, WUSD will only use Rapid Antigen Testing in its schools. If PCR testing is preferred, please contact your primary care physician.

WUSD will designate staff to report testing numbers and test results to both CDPH and FCDPH as required by local and state guidance.

### EMPLOYEE COVID-19 TESTING INFORMATION

**Who:** WUSD will offer free COVID-19 tests to employees, either through free over the counter Rapid Antigen Test kits or at a designated WUSD testing site. Although testing is not mandatory for employees in all situations, testing is highly recommended.

**Scenarios where employee testing is recommended:**

- When an employee becomes symptomatic at school, employees should test before being sent home.
- Before returning from a prolonged school break, (i.e., winter, spring, and/or summer break)

**Scenarios where employee testing is MANDATORY:**

- If an employee would like to return sooner than the ten-day isolation period after a confirmed positive COVID-19 test, the employee needs to test at day five. If the employee's day five test is negative and his/her symptoms significantly improve, the employee may return at day six. If an employee's day five test is still positive, the employee will have to complete the ten days of isolation before returning to work.
- If an employee is identified as a close contact and is asymptomatic, the employee must test 3-5 days after exposure. If an employee who is considered a close contact becomes symptomatic, the employee must test.

**What:** WUSD participates in both the CDPH Professional Antigen Testing program as well as the CDPH Over the Counter/At-Home Rapid Antigen Test Kit Program. All tests are offered to employees free of charge.

**Where:** Employees can use Over the Counter/At-Home Rapid Antigen Test kits which can be obtained at their school site, Health Services, or Human Resources for use at home (Option A below) or they can be tested at their school (option B below)

**Option A:** Employees may choose to self-test and self-report using over the counter (OTC) home tests that must be obtained from their school's health office, Health Services, or Human Resources.

**Option B:** Employees may test at any WUSD school site or district office.

**When:** Employees who choose to self-test and self-report may test at their convenience.

Note: employees will not be paid for testing outside of their work hours.

Employees who choose to test at an WUSD testing site may test during scheduled work hours

**How:** WUSD will coordinate COVID-19 testing.

### **What is the cost?**

There will be no charge to the WUSD employee, unless employee elects to test through a valid healthcare/clinical provider or testing facility (e.g., Kaiser, CVS, Walgreens).

### **Testing obligations with multiple agencies or employers:**

If a WUSD employee has reporting obligations to different agencies or employers, the employee may elect to satisfy the WUSD testing obligations by providing proof of testing. The proof of testing can be emailed to [humanresources@wusd.ws](mailto:humanresources@wusd.ws).

---

## **STUDENT COVID-19 TESTING INFORMATION**

---

**Who:** WUSD will offer free COVID-19 tests to students, either through free over the counter Rapid Antigen Test kits or at a designated WUSD testing site. Although testing is not mandatory for students in all situations, testing is highly recommended.

### **Scenarios where testing is recommended:**

- When a student becomes symptomatic at school, student should test before being sent home.
- When a student is considered a close contact and is asymptomatic, student should test 3-5 days after exposure. If a student who is considered a close contact becomes symptomatic, the student should test immediately and stay home.
- Before returning from a prolonged school break, (i.e., winter, spring, and/or summer break)

### **Scenario where testing is MANDATORY:**

- If a student would like to return sooner than the ten-day isolation period after a confirmed positive COVID-19 test, the student needs to test at day five. If the student's day five test is negative and his/her symptoms significantly improve, the student may return at day six. If a student's day five test is still positive, the student will have to complete the ten days of isolation before returning to school.

**What:** WUSD participates in both the CDPH Professional Antigen Testing program as well as the CDPH Over the Counter/At-Home Rapid Antigen Test Kit Program. All tests are offered to students free of charge.

### **Where:**

Students can use Over the Counter/At-Home Rapid Antigen Test kits which can be obtained at their school site for use at home (Option A below) or they can be tested at their school (option B below)

Option A: Students may choose to self-test and self-report using over the counter (OTC) home tests that must be obtained from their school's health office or school nurse.

Option B: Students may test at their school site.

**How:** WUSD will coordinate COVID-19 testing in accordance to CDPH and FCDPH guidance.

## COVID-19 VACCINATIONS

**Purpose:** WUSD recognizes that vaccination is effective at preventing COVID-19 and protecting against both transmission and serious illness or death. Therefore, the WUSD strongly encourages employees to stay up to date with COVID-19 vaccinations including all primary series doses and boosters. Vaccinations are free to anyone who would like to receive them. To learn more about the different vaccinations available access the Fresno County Department of Public Health website: <https://www.co.fresno.ca.us/departments/public-health/covid-19/covid-19-vaccine-information>. To find a vaccination clinic and schedule an appointment, go to [www.myturn.ca.gov](http://www.myturn.ca.gov).

## CRITERIA FOR CLASSROOM/SCHOOL CLOSURE

**Purpose:** To provide guidance on the criteria for classroom and school closure.

The Fresno County Department of Public Health (FCDPH) considers an outbreak when positive cases reach 10% of an airspace. School administration will consult with FCDPH about potential classroom and/or school closures. Decisions to close a classroom or school will be made in conjunction with the Fresno County Department of Public Health on a case-by-case basis.

## HEALTH SCREENING SELF-CERTIFICATION PROTOCOL

**Purpose:** WUSD encourages employees, students and visitors to self-certify their health prior to entering WUSD offices and school settings as a preventive measure to mitigate the spread COVID-19 and to promote good health.

### EMPLOYEE HEALTH SCREENING

On a daily basis, all WUSD employees should be mindful of the following symptoms prior to entering their assigned work location:

1. Fever and/or chills (100.4 degrees or higher)
2. A new or worsening cough
3. Shortness of breath
4. Loss of taste and/or smell
5. Congestion and/or runny nose
6. Sore throat
7. Fatigue
8. Muscle and/or body aches
9. Headache

10. Nausea/vomiting and/or diarrhea
11. Exposure to COVID-19 in the past 14 days

- **If symptoms are secondary to an underlying disease(s) or condition(s), such as allergies, asthma, migraine headaches, or dietary concern(s), and have not worsened compared to baseline, then the employee can continue to work and follow precautions as stated above.**
- If you have new or worsening symptoms, stay home and contact your supervisor immediately.

## **STUDENT SCREENING**

---

On a daily basis, Parents/Guardians should be mindful of the following symptoms prior to sending their child to school:

1. Fever and/or chills (100.4 degrees or higher)
  2. A new or worsening cough
  3. Shortness of breath
  4. Loss of taste or smell
  5. Congestion and/or runny nose
  6. Sore throat
  7. Fatigue
  8. Muscle and/or body aches
  9. Headache
  10. Nausea/vomiting and/or diarrhea
  11. Exposure to COVID-19 in the past 14 days
- If the parent/guardian answers “no” to all questions, they can allow their child to come to school.
  - If the parent/guardian answers “yes” to any of the questions, they will need to stay home and consult with their doctor and report illness to the school absence line.

When the student does not appear to be well or states they do not feel well during the school day, the student will be evaluated by a school nurse/designated staff member.

### **ROLE OF SCHOOL NURSE AND/OR HEALTH STAFF/CONTACT TRACER**

Once alerted to a fever or respiratory illness in a student or staff, a member of the health staff or contact tracer should communicate with the individual to obtain information about onset of symptoms, specific symptoms and any other pertinent information regarding the illness.

- Health staff should call student or staff daily to check on symptoms and to offer support to the ill individual.
- Once an ill individual meets criteria listed above, the school nurse will clear the student or staff member to return to work/school.

### **ROLE OF PROGRAM ADMINISTRATION**

For students subject to COVID-19 quarantines, isolations, and school closures, the WUSD will maintain continuity of instruction and services to support the student's educational program while unable to attend school in person through Independent Study Programs, as appropriate. Site leaders will contact

the student's parent/guardian regarding continuity of services as described in the program/site specific plans.

## VISITOR SCREENING

Visitors should be mindful of the following symptoms prior to entering any WUSD facility:

1. A fever and/or chill (100.4 degrees or higher)
2. A new or worsening cough
3. Shortness of breath
4. Loss of taste or smell
5. Congestion and/or runny nose
6. Sore throat
7. Fatigue
8. Muscle and/or body aches
9. Headache
10. Nausea/vomiting and/or diarrhea
11. Exposure to COVID-19 in the past 14 days

Visitors should reschedule WUSD appointments if experiencing any of the above symptoms.

## FACE COVERING PROTOCOL

**Purpose:** The following shall be the protocol for face coverings for employees, students, and visitors at WUSD facilities.

Effective Saturday, March 12, 2022, California adopted a new indoor Face Covering policy and moved from a mandate to a strong recommendation regarding masking for all staff, students, and visitors in K-12 office and school settings regardless of vaccination status. Therefore, please be mindful and respectful of personal choice. Also, continue to be patient, flexible, and kind.

For WUSD employees, students, and visitors, at a location where the COVID-19 protocols are determined by partnering entities, the WUSD employees, students, and visitors, must follow the COVID-19 protocols as determined by the entity having jurisdiction to set the COVID-19 protocols for the location.

**For WUSD sponsored and non-WUSD sponsored events, please be aware of the following protocols:**

1. WUSD employees, students, and visitors must follow the COVID-19 protocols as determined by the entity having jurisdiction to set the COVID-19 protocols for the event location. At all events where WUSD is the entity having jurisdiction to set COVID-19 protocols, masks are strongly encouraged, but not required.
2. Fist bumps are preferable to hugs and handshakes.
3. When a WUSD employee is sick **OR** has COVID-19 related symptoms **OR** has been a close contact to a COVID-19 positive person, please stay home. Follow the reporting protocol.

4. Students and visitors who were in close contact with a COVID-19 positive person and are not symptomatic, may attend the event, but must wear a mask.
5. Any mega-event, as defined by CDPH will follow the mega-event guidance.

## PHYSICAL DISTANCING PROTOCOL

**Purpose:** To provide guidance to staff on best practices for physical distancing.

- CalOSHA Emergency Temporary Standards (ETS) no longer require physical distancing, except:
  - During an outbreak (3 or more employees in an exposed group), the WUSD will evaluate whether physical distancing or barriers are necessary to control the transmission of COVID-19.
  - Physical distancing and barriers must be used in a major outbreak (20 or more employees in an exposed group) for all employees, regardless of vaccination status.
- For contact tracing purposes for employees, anyone sharing the same indoor airspace with a confirmed positive COVID-19 person, for greater than 15 minutes in a 24-hour period during the positive person's infectious period will be considered a close contact.

### Gatherings, Field Trips and Visitors

- Refer to the most current local and state guidance for your specific activity.

### Mealtime Considerations

- At mealtimes, maximize physical distancing as much as possible while eating, especially if students are eating indoors. Consider using outdoor spaces or classrooms to help facilitate distancing.

### Other Considerations for School Settings:

- Band and choir practices may occur in compliance with each school site and school district protocol, and in accordance with the California Department of Public Health Return to School Guidance.

## CLEANING AND DISINFECTING PROTOCOL

**Purpose:** To provide information on cleaning and disinfecting efforts during the COVID- 19 pandemic.

On April 5, 2021, the CDC updated its guidance on cleaning and disinfecting a facility. The CDC found that the risk for people to become infected if they touch surfaces the virus has landed on and then touch their nose, mouth, or eyes is low. Additionally, the guidance states that cleaning with soap and water at least once a day is generally sufficient. More frequent cleaning may be needed when a space is used by those who may not consistently wear masks, wash hands, or cover coughs and sneezes.

In both school and office settings serviced by a custodian, high-touch surfaces in common areas will be disinfected once per day. In the office setting, staff may utilize cleaning supplies that will be provided at stations around offices to clean computers, monitors, mouse and keyboards and personal

workspaces. In the school setting, staff will be provided disinfecting and cleaning supplies as appropriate.

Only approved Environmental Product Agency (EPA) products will be used to disinfect. The list of EPA-approved products can be found [here](#). Products that do not require EPA registration may be used.

All product label instructions shall be followed by anyone using a disinfecting product, paying attention to appropriate Personal Protective Equipment (PPE) and required product dwell time to effectively disinfect. In a school setting, anyone using a disinfecting product must have completed the Integrated Pest Management (IPM).

## **SCHOOL SETTINGS**

**Important: Disinfectants should not be applied on items that children might put in their mouths. Cleaning toys and other items used by children should be done with soap and water or an appropriate sanitizing solution.**

### **WUSD School Sites:**

WUSD custodians will disinfect high-touch surfaces in all common areas, including door handles, light switches, reception area and restrooms, once a day. Classrooms, including student desks, student chairs, trash cans, in-classroom restrooms and all hard surface flooring will be disinfected one time per day.

Items such as student manipulatives, toys, equipment, teacher/paraprofessional desks and chairs or items not listed above are the responsibility of the teacher/paraprofessional to clean or disinfect. Disinfecting supplies are available to staff in designated areas or by contacting the site custodian.

All classrooms and bathrooms are fogged with a probiotic spray one time per week. This probiotic fogging is not a substitute for cleaning or disinfecting with a product on the EPA list of approved disinfectants but is an additional step to eliminate biofilm that can protect bacteria and viruses.

### **DISINFECTING AFTER A CONFIRMED COVID-19 CASE**

After identification of a confirmed COVID-19 positive case in an office or school setting within the previous 24 hours, cleaning and disinfecting of the spaces where the case spent significant time will be arranged. In accordance with the *COVID-19 and Reopening In-Person Instruction Framework & Public Health Guidance for K-12 Schools in California, 2020-2021 School Year dated January 14, 2021*, this will be done after staff and students have left for the day. The space does not need to be closed to staff and students prior to the cleaning and disinfection.

Should the Fresno County Department of Public Health (FCDPH) or WUSD staff become aware that an outbreak may be underway, WUSD will consult with the FCDPH on the need for additional cleaning and disinfecting.

## **ENGINEERING CONTROLS AND VENTILATION**

In order to maintain adequate ventilation and air quality in schools and offices, the WUSD has taken the following actions:

- Encouraged staff to open windows and doors as appropriate and safe

- Contracted with a qualified heating ventilation and air conditioning (HVAC) company to ensure that all units are operating optimally and provide adequate fresh air ventilation
- Changed HVAC system filters to minimum efficiency rating value (MERV) 13 wherever possible
- Provided each classroom with a portable high-efficiency air filtration unit

## PERSONAL PROTECTIVE EQUIPMENT (PPE) GUIDELINES

**Purpose:** To provide guidance to staff on what PPE may be applicable to their job duties in response to COVID-19.

### SURGICAL FACE MASKS

**Who may use:** WUSD employees and students.

**When to use:** When required by state or local health order and/or CalOSHA regulations.

**Typical tasks necessitating use:** Employee presence in an essential facility, nursing services (nurses providing nursing services/procedures, masking any student or staff that are showing signs and symptoms of respiratory illness).

### N95 RESPIRATORS

**Who may use:** WUSD employees and students.

**When to use:** For WUSD employees: When performing aerosolizing medical procedures, when using products that would require respiratory protection according to the Safety Data Sheet. For students: when extra protection against COVID-19 is preferred.

**Typical tasks necessitating use:** tracheostomy suctioning, performing nebulizer treatments, or when handling concentrated cleaning and disinfecting products, as required by the Safety Data Sheet.

### FACE SHIELDS/EYE PROTECTION

**Who should use:** Custodians, teachers, paraeducators, school nurses or anyone trained to do specialized healthcare procedures and any employee in accordance with the Face Covering Protocol.

**When to use:** When splash protection is required or in accordance with the Face Covering Protocol.

**Typical tasks necessitating use:** providing first aid, performing specialized healthcare procedures and cleaning contaminated areas and while doing medical aerosol procedures such as oral or tracheostomy suctioning or nebulizer treatments.

### LEVEL 3 MEDICAL-GRADE PROTECTIVE GOWNS

**Who should use:** School nurses, and LVNs.

**When to use:** Aerosol generating procedures, working in isolation rooms.

**Typical tasks necessitating use:** tracheostomy suctioning or nebulizer treatments.

## WUSD EMPLOYEE AND STUDENT COVID-19 EXPOSURE RESPONSE PLAN

**Purpose:** The WUSD recognizes the importance of responding quickly and appropriately to possible or confirmed COVID-19 exposure to an WUSD employee or student. Therefore, the WUSD has created the following employee and student exposure response plan and flowcharts:

- Process For Employees to Report COVID-19 Related Illness
- First Notice Reporting Flowchart Once Employee Reports A COVID-19 Related Illness
- COVID-19 Screening Flowchart of WUSD Students
- WUSD Students COVID-19 Illness and Quarantine Guidelines - English

- WUSD Students COVID-19 Illness and Quarantine Guidelines - Spanish
- WUSD Employees COVID-19 Illness and Quarantine Guidelines

Note: severely immunocompromised individuals should consult with their primary care physician.

---

## PROCESS FOR EMPLOYEES TO REPORT COVID-19 RELATED ILLNESS

---

**Purpose:** The WUSD has established a *First Notice Reporting* process to ensure all employees report a COVID-19 Related Illness in a consistent, timely manner.

**Employees are expected to report a COVID-19 Related Illness to WUSD when:**

- You have experienced COVID-19 related symptoms, **OR**
- You were alerted that you are considered a close contact to a positive COVID-19 case, **OR**
- You have tested positive for COVID-19, or after being identified as a close contact are awaiting COVID-19 test results.

**Employees are expected to follow the steps as indicated below:**

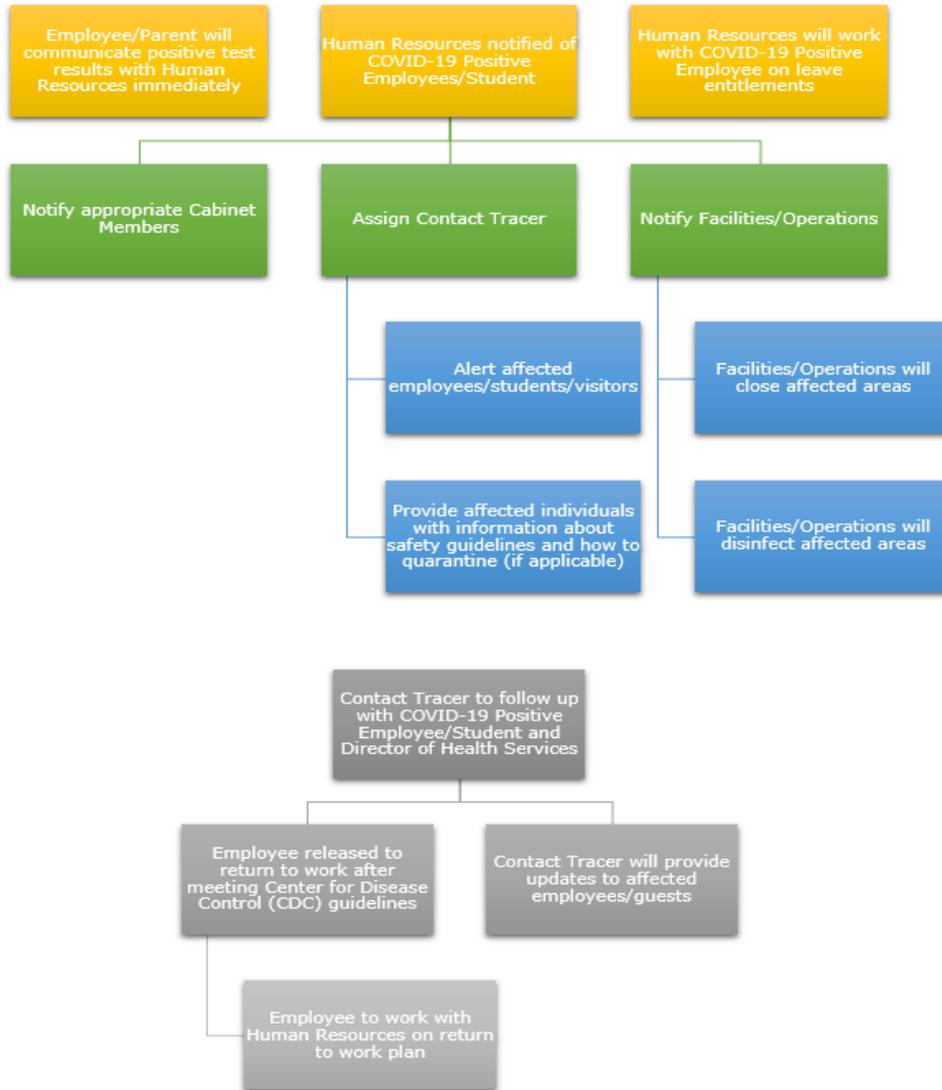

1. Promptly notify your immediate supervisor that you are going to report a COVID-19 related illness.
2. **Immediately** report all COVID-19 Related Illnesses as indicated above by email, [sophia.rizzo@wusd.ws](mailto:sophia.rizzo@wusd.ws) OR by phone (559) 495-5610.
3. Provide the following information when you email or call to ensure timely reporting:
  - a. First and Last Name
  - b. Your Email and Phone Number
  - c. Reason for Report (e.g., *experiencing COVID-19 symptoms, close contact, tested positive for COVID-19, or awaiting COVID-19 test results*)
  - d. Department and actual Work Location (e.g., worksite and room number, if applicable)
  - e. Actual date you last worked
4. A confidential WUSD liaison will answer your email/call and assist in determining appropriate next steps.
5. **Thank you!** We rely on your action to help mitigate the spread of COVID-19.

---

## FIRST NOTICE REPORTING FLOWCHART ONCE EMPLOYEE REPORTS A COVID-19 RELATED ILLNESS

---

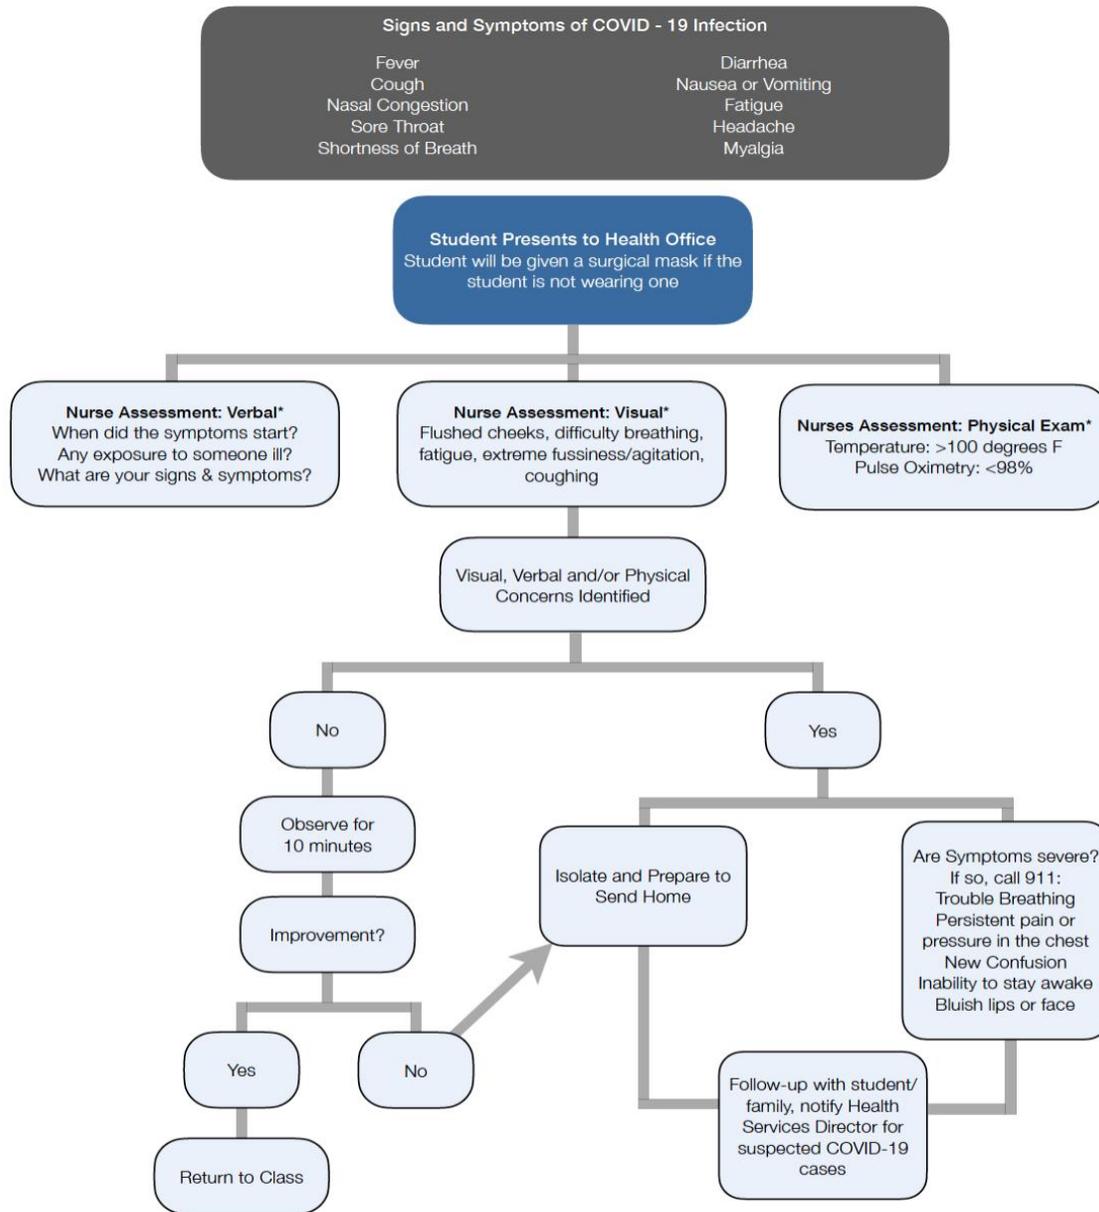

**Purpose:** The First Notice Reporting Flowchart was designed to demonstrate the internal process that takes place after an employee reports a COVID-19 related illness.

## COVID-19 SCREENING FLOWCHART OF WUSD STUDENTS

---

**Purpose:** The COVID-19 Screening Flowchart of WUSD Students was designed to demonstrate the internal process when a student presents signs and symptoms of COVID-19 to a Health Office.

\*If school nurse is not physically available at the school site/campus, call the school nurse for consultation.  
\*\* Symptomatic students will be sent home to isolate according to the Return-to-Work Toolkit. The remaining students in the classroom will continue with their school day. If the symptomatic student becomes a confirmed positive COVID case, close contacts will be identified and guidance given to parents on testing and possible quarantine.

# FCSS Students COVID-19 Illness and Quarantine Guidelines

Report all cases to the school absence reporting line.

School Districts are required to report ALL positive cases to the Fresno County Department of Public Health at (559) 600-3332.

STUDENT A	STUDENT B	STUDENT C
 <p>Any student who has tested positive for COVID-19, regardless of vaccination status, previous infection, or lack of symptoms</p> <p><b>Isolation:</b></p> <ul style="list-style-type: none"> <li>✓ Stay home for at least 5 days.</li> <li>✓ Isolation can end after day 5 if symptoms are not present or are resolving and a diagnostic specimen collected on day 5 or later tests negative.</li> <li>✓ If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.</li> <li>✓ If fever is present, isolation must be continued until fever resolves for 24 hours without the use of fever-reducing medications.</li> <li>✓ If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10.</li> <li>✓ Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings.</li> <li>✓ Antigen test preferred.</li> </ul>	 <p>Any student who is solely symptomatic or who has tested for COVID-19 due to symptoms and waiting for lab results</p> <p><b>With symptoms:</b></p> <p>Isolation until the following requirements have been met:</p> <ul style="list-style-type: none"> <li>✓ 24 hours* (1 day) with no fever (without the use of fever-reducing medicine) <b>and</b></li> <li>✓ <u>Symptoms</u> have improved</li> </ul> <p>*Student B should have a negative test for SARS-CoV-2, OR a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) OR a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), OR at least 10 days have passed since symptom onset.</p>	 <p>Any student who believes they have been a close contact with a COVID-19 positive person at home, school, or in the community</p> <p><b>If Student C:</b></p> <ul style="list-style-type: none"> <li>✓ Is or becomes symptomatic, regardless of vaccination status, refer to <b>Student B</b>.</li> <li>✓ Is asymptomatic, regardless of vaccination status, Student <b>may continue in school</b>.</li> <li>✓ Wear a well-fitting mask around others for 10 days after last exposure, when in an indoor setting. A well-fitting mask is strongly encouraged to wear in outdoor settings.</li> </ul> <p>*Testing is recommended 3 to 5 days after last close contact with a positive. If student C receives a negative test result, they may continue to come to school. If student C receives a positive test result, see student A.</p>

# Indicaciones de cuarentena y enfermedad COVID-19 para estudiantes de FCSS

Reporte todos los casos a la línea de información de ausencias de la escuela.  
Los distritos escolares están obligados a reportar TODOS los casos positivos al Departamento de Salud Pública del Condado de Fresno.

## Estudiante A

Cualquier estudiante que haya dado positivo por COVID-19, independientemente del estado de vacunación, infección previa, o falta de síntomas

- ✓ Quédese en casa por lo menos 5 días.
- ✓ El aislamiento puede terminar después del día 5 si los síntomas no están presentes o se están resolviendo y una muestra de diagnóstico recolectada el día 5 o más tarde da negativo.
- ✓ Si no puede hacerse la prueba o elige no hacerlo, y los síntomas no están presentes o se están resolviendo, el aislamiento puede terminar después del día 10.
- ✓ Si hay fiebre, se debe continuar con el aislamiento hasta que la fiebre se resuelva durante 24 horas sin el uso de medicamentos para reducir la fiebre.
- ✓ Si los síntomas, aparte de la fiebre, no se resuelven, continúe aislándose hasta que los síntomas se resuelvan o hasta después del día 10.
- ✓ Use una máscara a su medida cuando este alrededor de otras personas durante un total de 10 días, especialmente en ambientes interiores.
- ✓ Se prefiere la prueba de antígeno.

## Estudiante B

Cualquier estudiante que sea únicamente sintomático o que haya tomado la prueba de COVID-19 debido a síntomas y esperando los resultados de laboratorio.

### Con síntomas:

Aislamiento hasta que se cumplan los siguientes requisitos:

- ✓ 24 horas \*(1 día) sin fiebre (sin el uso de medicina para reducir la fiebre) y
- ✓ Los síntomas han mejorado

\*El estudiante B debe tener una prueba negativa de SARS-CoV-2, Ó un proveedor de atención médica ha proporcionado documentación de que los síntomas son típicos de su condición crónica subyacente (por ejemplo, alergias ó asma)  
Ó un proveedor de atención médica ha confirmado un diagnóstico alternativo (por ejemplo, faringitis estreptocócica, virus Cocksackie),  
Ó han pasado al menos 10 días desde el inicio de los síntomas.

## Estudiante C

Cualquier estudiante que crea que ha estado en contacto cercano con una persona positiva a Covid-19 en el hogar, la escuela, o en la comunidad

### Si el Estudiante C:

- ✓ Esta o se vuelve sintomático, independientemente del estado de vacunación, refiera a **ESTUDIANTE B**.
- ✓ Si es asintomático, independientemente del estado de vacunación, el estudiante **puede regresar a la escuela**.
- ✓ Use una máscara bien ajustada alrededor de otras personas durante 10 días después de la última exposición, cuando esté en un entorno interior. Se recomienda encarecidamente usar una máscara bien ajustada en entornos al aire libre.

\*Se recomienda realizar pruebas de 3 a 5 días después del último contacto cercano con un positivo. Si el estudiante C recibe un resultado negativo en la prueba, puede continuar viniendo a la escuela. Si el estudiante C recibe un resultado positivo en la prueba, consulte al estudiante A.

# FCSS Employees COVID-19 Illness and Quarantine Guidelines

## PERSON A

Any person who has tested positive for COVID-19 regardless of vaccination status, previous infection, or lack of symptoms

### Isolation:

- ✓ Stay home for at least 5 days.
- ✓ Isolation can end after day 5 if symptoms are not present or are resolving and a negative diagnostic specimen is collected at Health Services or a healthcare professional or a home test if uploaded into Primary Health on day 5.
- ✓ If unable to test or choosing not to test, and symptoms are not present or are resolving, isolation can end after day 10.
- ✓ If fever is present, isolation must be continued until fever resolves for 24 hours without the use of fever-reducing medications.
- ✓ If symptoms, other than fever, are not resolving continue to isolate until symptoms are resolving or until after day 10.
- ✓ Wear a well-fitting mask around others for a total of 10 days, especially in indoor settings.
- ✓ Antigen test preferred.

## PERSON B

Any person who is solely symptomatic or who has tested for COVID-19 due to symptoms and waiting for lab results

### With Symptoms:

Isolation until the following requirements have been met:

- ✓ 24 hours\* (1 day) with no fever (without the use of fever-reducing medicine) **and**
- ✓ Symptoms have improved

\***Person B** should have a negative test for SARS-CoV-2, OR a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) OR a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), OR at least 10 days have passed since symptom onset.

## PERSON C

A person sharing the same indoor airspace with a positive person for more than 15 minutes (cumulative per day) during the person's infectious period, regardless of whether person(s) is wearing a mask or vaccination status.

### If Asymptomatic:

- Person C may continue to report to work but must test within 3 to 5 days after their last close contact\*
- Wear a well-fitting mask around others for 10 days, especially in an indoor setting
- If an exposed employee tests positive for COVID-19, follow isolation instructions for Person A.

\*Any person who has been confirmed COVID-19 positive within the last 90 days is exempt testing unless symptoms develop.

### If Symptomatic:

- Person C must test immediately\*\*, then go home. Person C must continue to stay home until test results are obtained.
- If Person C receives a negative antigen test, Person C may return to work 24 hours after symptoms resolve or are improving. It is recommended that an employee retest 1-2 days after receiving a negative antigen test.
- If unable to test or choosing not to test, isolation ends on Day 10.
- If Person C returns to work earlier than ten days after the close contact, Person C must wear a face covering while around others for 10 days following the close contact.

\*\*For symptomatic employees who have tested positive with the previous 90 days, an antigen test is preferred.

Updated 06/12/2022

## SB 114 COVID-19 SUPPLEMENTAL PAID SICK LEAVE (SPSL)

The COVID-19 Supplemental Paid Sick Leave (SPSL) established by Senate Bill 114 requires the WUSD to provide up to 80 hours of SPSL, pro-rated for less than full-time. The SPSL is retroactive to January 1, 2022 and expired on December 31, 2022.

**A covered employee may take up to 40 hours of leave (pro-rated for less than full-time) if the employee is unable to work or telework due to any of the following reasons:**

1. The employee is subject to a quarantine or isolation period related to COVID-19 as defined by an order or guidelines of the State Department of Public Health, the CDC, or a local health officer with jurisdiction over the workplace.
2. The employee has been advised by a health care provider to self-quarantine due to concerns related to COVID-19.
3. The employee or family member is attending an appointment to receive a vaccine, or Booster, for protection against contracting COVID-19.
4. The employee is experiencing symptoms related to a COVID-19 vaccine that prevent the employee from being able to work or telework or is caring for a family member experiencing side effects from the vaccine or booster which prevents the employee from being able to work or telework.
5. The employee is experiencing symptoms of COVID-19 and seeking a medical diagnosis.
6. The employee is caring for a family member who is subject to a quarantine or isolation order or guidelines, or who has been advised to self-quarantine by a health care provider.
7. The employee is caring for a child whose school or place of care is closed or otherwise unavailable for reasons related to COVID-19.

*Please note: Leave for vaccination or Booster purposes, shall be limited to three (3) days unless employee provides medical verification that employee or family member is continuing to experience symptoms related to the COVID-19 vaccine or booster.*

**A covered employee may take up to an additional 40 hours of leave (pro-rated for less than full-time) if the employee is unable to work or telework for either of the following reasons:**

1. The employee tests positive for COVID-19. Proof of positive COVID-19 test results are required.
2. The employee is caring for a family member\* who tested positive for COVID-19. Proof of positive COVID-19 test results are required.

*\*A family member includes a child, parent, spouse, registered domestic partner, grandparent, grandchild, or sibling.*

The WUSD will require satisfactory medical documentation to receive the additional 40 hours of SPSL. The WUSD reserves the right to require an additional COVID-19 test on the fifth (5<sup>th</sup>) day or after the initial positive test.

[COVID-19 Supplemental Paid Sick Leave Notice](#)

**SYSTEMS FOR COMMUNICATION**

**Purpose:** To ensure WUSD has effective two-way communication with employees, labor representatives, and parents/guardians regarding COVID-19 related issues.

WUSD uses the COVID-19 Health and Safety Guidelines as a vehicle to communicate the following to stakeholders:

- Reporting of COVID-19 positive cases
- How to identify and report symptoms and hazards that employees may be exposed to within the workplace without fear of reprisal using the procedure outlined in the IIPP
- WUSD procedures or policies for accommodating employees with medical or other conditions that put them at increased risk of severe COVID-19 illness
- WUSD procedures on access to COVID-19 testing including asymptomatic, symptomatic or response testing

In compliance with AB685, the WUSD is required to provide timely employee and union notification when:

- a) positive COVID-19 test or medical diagnosis from licensed medical provider;
- b) ordered quarantine from public health official; or
- c) death from COVID-19.

If a positive case is identified in the workplace, employees will be notified without disclosing the name of the individual or any personally identifiable information about the person to ensure compliance with privacy laws. For more information on this subject, please visit the U.S. Department of Health and Human Services [here](#).

- Employee notification will be sent to department/program employees
- Parent/Guardian notification will be sent by department/program health designee.
- When applicable, Union notification will be sent by Human Resources

---

## **SAMPLE EMPLOYEE AND LABOR PARTNERS NOTIFICATION EMAIL**

**From:** Cabinet Member Name  
**To:** Work Location/Department Staff  
**CC:**  
**Subject:** COVID-19 Site Notification

Dear WUSD Staff (adjust to address labor partners):

This correspondence is to notify you that on INSERT DATE, the Washington Unified School District ("WUSD") became informed that you may have been exposed to the COVID-19 virus at INSERT SITE NAME(S).

If you have any concerns, please consult with a healthcare provider as soon as possible. You may use available leave entitlements under the Family First Corona Response Act, your own accumulated sick leave, personal necessity leave, or other available leaves, which would include the WUSD COVID-19 PN, if available/applicable, to seek testing, medical diagnosis/treatment, or if you are ordered by a medical professional or the Fresno County Department of Public Health ("FCDPH") to quarantine. You may also file a worker's compensation claim if you contract COVID-19 through your employment. Please contact me if you have questions regarding your available leaves or potential worker's compensation benefits.

WUSD is an equal opportunity employer and does not discriminate against employees on the basis of medical conditions, disabilities, or any other protected classifications. Likewise, WUSD does not retaliate against employees for using protected leave rights, filing worker's compensation claims, or for pursuing internal or external complaints. If you believe you have suffered an adverse employment action for any protected activities, please contact Human Resources.

WUSD aggressively responds to COVID-19 to ensure safe working and learning environments. The affected department site(s) will be thoroughly disinfected in accordance with existing protocols. Impacted employees may be temporarily assigned to a new work location or offered the ability to telework, if feasible, while their regular work location is sanitized. **Employees, students and members of the public will comply with facial covering and social distancing requirements while in WUSD facilities.** Please refer to the WUSD COVID-19 Health and Safety Guidelines for specific information regarding sanitation and safety protocols.

WUSD continues to work in full cooperation with FCDPH to minimize potential risks to employees, students, and members of the public.

Thank you for your ongoing dedication to WUSD and our students.

**\*\*\*Please note: Individuals with close contact will be notified separately.**

**SAMPLE PARENT/GUARDIAN COVID-19 EXPOSURE NOTIFICATION – ENGLISH**

**DATE**

Dear Parent or Guardian,

The **(INSERT PROGRAM NAME)** leadership team would like to inform you that your child may have been exposed to COVID-19 on **(INSERT DATE)** at the **(INSERT WORK LOCATION e.g. Lighthouse for Children, Toddler Room XX)**. Coronavirus (COVID-19) is an illness caused by a virus that can spread from person to person.

Although your child may have been exposed, your child can remain in school as long as they are asymptomatic. If your child develops symptoms, please keep your child home and alert the school attendance desk. We encourage you to contact your physician immediately for evaluation.

The following COVID-19 symptoms may appear 2 – 10 days after exposure to the virus:

- Fever and/or chills
- A new or worsening cough
- Shortness of breath
- Loss of taste or smell
- Congestion and/or runny nose
- Sore throat
- Fatigue
- Muscle and/or body aches
- Headache
- Nausea/vomiting and/or diarrhea

We understand this is concerning news to receive. If you would like to speak with someone, please contact **(INSERT PROGRAM CONTACT INFORMATION)**. For information on isolation and quarantine, please visit the Fresno County Department of Public Health (FCDPH) website at: <https://www.co.fresno.ca.us/departments/public-health/covid-19/covid-19-orders>

Thank you for your understanding and please contact us with any questions.

Sincerely,

Health Staff Name

**SAMPLE PARENT/GUARDIAN COVID-19 EXPOSURE NOTIFICATION - SPANISH**

**DATE**

Estimado padre o Guardianes,

El equipo de líderes del **SCHOOL/PROGRAM NAME** desea informarle que su hijo/a pudo haber estado expuesto al COVID-19 el **DATE OF EXPOSURE** en el **LOCATION/ROOM # OF EXPOSURE**. El coronavirus (COVID-19) es una enfermedad causada por un virus que puede propagarse de persona a persona.

Aunque su hijo estuvo expuesto, su hijo puede permanecer en la escuela siempre que permanezca asintomático. Si su hijo desarrolla síntomas, manténgalo en casa y avise al mostrador de asistencia de la escuela. Lo alentamos a que se comunique con su médico de inmediato para una evaluación.

Los siguientes síntomas de COVID-19 pueden aparecer de 2-10 días después de la exposición al virus:

- Fiebre y / o escalofríos
- Tos nueva o que empeora
- Dificultad para respirar
- Pérdida del gusto o el olfato
- Congestión y/o secreción
- Dolor de garganta
- Fatiga
- Dolores musculares y/o corporales
- Dolor de cabeza
- Náuseas / vómitos y/o diarrea

Entendemos que se trata de noticias preocupantes para recibir. Si desea hablar con alguien, comuníquese con (**INSERT PROGRAM CONTACT INFORMATION**). Para más información sobre el aislamiento y la cuarentena, por favor de visitar la página web del Departamento de Salud Pública del Condado de Fresno (FCDPH) en: <https://www.co.fresno.ca.us/departments/public-health/covid-19/covid-19-orders>

Gracias por su comprensión y por favor contáctenos si tiene alguna pregunta.

Atentamente,

## **SAMPLE PARENT/GUARDIAN MASKING NOTIFICATION - ENGLISH**

Dear Parents/Guardian:

We know that there are varied opinions about masking. Mask wearing is still strongly recommended and is an option for every student or staff member who wishes to wear one at any time. Our school has masks available for staff and students if requested. As we begin to transition from pandemic response into a new chapter

where we can use more routine disease control tactics, it is important that we continue with some of the mitigation strategies we are all familiar with -- monitoring symptoms, testing, high-quality ventilation systems, etc. -- with a focus on personal responsibility and respect. Please be kind to each other and respect each other's decisions.

### **Respecting Personal Choice**

- Parents and students now have personal choice for masking in schools with the expectation that individual choices are respected.
- One should not make assumptions regarding someone's beliefs or health status based upon their choice to wear or not wear a mask, nor should they comment on them.

### **Responsibility**

- Students and staff should continue to remain home when sick.
- Students and staff are encouraged to take a COVID-19 test if exhibiting symptoms and/or if they have a known exposure to COVID-19.

Our school has always been in compliance with CalOSHA. The Executive Order signed by the Governor aligns CalOSHA guidance with this updated CDPH guidance. Regarding masking, we will align with the CDPH school guidance and include voluntary (but strongly recommended) masking for staff and students, especially in common areas in our schools and facilities.

Thank you for your dedication as we continue to navigate what is hopefully a move forward out of the pandemic. We truly appreciate your patience and understanding as we take every step to preserve the health of our students and staff while keeping our community as safe and healthy as possible.

For more information on the Office of the Fresno County Superintendent of Schools policies and guidelines, please refer to our COVID-19 Safety Plan Toolkit.

---

## **SAMPLE PARENT/GUARDIAN MASKING NOTIFICATION - SPANISH**

---

Estimado padre o Guardianes:

Sabemos que hay opiniones variadas sobre el enmascaramiento. El uso de máscaras sigue siendo muy recomendable y es una opción para cada estudiante o miembro del personal que desee usar una en cualquier momento. Nuestra escuela tiene máscaras disponibles para el personal y los estudiantes si se solicita. A medida que comenzamos a hacer la transición de la respuesta a la pandemia a un nuevo capítulo en el que podemos usar

tácticas de control de enfermedades más rutinarias, es importante que continuemos con algunas de las estrategias de mitigación con las que todos estamos familiarizados (monitoreo de síntomas, pruebas, sistemas de ventilación de alta calidad, etc.) con un enfoque en la responsabilidad personal y el respeto. Por favor, sean amables el uno con el otro y respeten las decisiones de los demás.

#### **Respetar la elección personal**

1. Los padres y los estudiantes ahora tienen la opción personal de enmascararse en las escuelas con la expectativa de que se respeten las elecciones individuales.
2. Uno no debe hacer suposiciones con respecto a las creencias o el estado de salud de alguien basado en su elección de usar o no usar una máscara, ni debe comentar en ellos.

#### **Responsabilidad**

1. Los estudiantes y el personal deben continuar permaneciendo en casa cuando estén enfermos.
2. Se alienta a los estudiantes y al personal a realizarse una prueba de COVID-19 si presentan síntomas y / o si tienen una exposición conocida a COVID-19.

Nuestra escuela siempre ha estado en cumplimiento con CalOSHA. La Orden Ejecutiva firmada por el Gobernador alinea la guía de CalOSHA con esta guía actualizada del CDPH. Con respecto al enmascaramiento, nos alinearemos con la guía escolar del CDPH e incluiremos el enmascaramiento voluntario (pero muy recomendable) para el personal y los estudiantes, especialmente en las áreas comunes de nuestras escuelas e instalaciones.

Gracias por su dedicación mientras continuamos navegando por lo que esperamos sea un avance para salir de la pandemia. Realmente apreciamos su paciencia y comprensión mientras damos cada paso para preservar la salud de nuestros estudiantes y personal mientras mantenemos a nuestra comunidad lo más segura y saludable posible.

Para obtener más información sobre las políticas y pautas de la Oficina del Superintendente de Escuelas del Condado de Fresno, consulte nuestro Kit de materiales del Plan de seguridad COVID-19.

---

## **NOTIFICATION LETTER FOR COVID-19 SURGE WITHIN COMMUNITY - ENGLISH**

---

**[Date]**

Dear Parent/Guardian:

This notice is to inform you that we are unfortunately experiencing high levels of COVID-19 in our schools and community. **[INSERT additional details]**. Due to this surge, we will not be providing individual exposure notifications

at this time. Instead, please know that there is currently a high potential to be exposed to someone with COVID-19 (both in and out of school) and we encourage ALL students to follow the actions below to protect one another:

- **Wear a mask in indoor settings to protect yourself and prevent spread COVID-19.** [High-quality masks](#) with the good fit and filtration provide the best protection.
- **If you develop [symptoms of COVID-19](#), stay home and get tested.** You may get tested at **[INSERT local school or community testing resources]** or by [clicking here to find a testing site near you](#). Over-the-counter (at-home) tests may also be used.
- **If you test positive for COVID-19, [isolate](#) at home and notify us right away at **[INSERT contact information]**.** When you notify us, we can take additional steps to keep our school community safe.
- **Stay up to date on COVID-19 vaccinations.** Vaccination remains the best way to protect yourself against severe disease. [Make an appointment to get vaccinated](#) or contact your healthcare provider.

We will reassess the situation every week. Note that infections diagnosed in students and school staff are not necessarily the result of exposure at school, and when safety protocols are followed in schools, COVID-19 transmission remains more likely to occur outside of school settings.

Thank you for considering this important information. We consider the health and well-being of our community a priority. If you have questions and concerns, we can be reached at **[INSERT phone number, email address, and/or website link]**.

Sincerely,

**[INSERT Name, Title, and Contact information]**

---

## NOTIFICATION LETTER FOR COVID-19 SURGE WITHIN COMMUNITY - SPANISH

---

**[Date]**

Estimado padre, madre o tutor:

Este aviso es para informarle que, desafortunadamente, estamos teniendo niveles altos de COVID-19 en nuestras escuelas y la comunidad. **[INSERT additional details]**. Debido a esta ola de casos, no enviaremos notificaciones

individuales de exposición en este momento. En cambio, tenga en cuenta que, actualmente, hay una gran probabilidad de estar expuesto a una persona con COVID-19 (tanto dentro como fuera de la escuela), y animamos a TODOS los estudiantes tomar las medidas siguientes para protegernos entre todos:

- **Usar una mascarilla en ambientes cerrados para protegerse y evitar la propagación de la COVID-19.** Las [mascarillas de alta calidad](#) con buen calce y filtro proporcionan la mayor protección.
- **Si tiene [síntomas de COVID-19](#), quédese en casa y hágase una prueba.** Puede realizarse una prueba en [\[INSERT local school or community testing resources\]](#) o [haga clic aquí para encontrar el centro de prueba más cercano](#). También puede utilizar pruebas de venta libre (en el hogar).
- **Si obtiene un resultado positivo en la prueba de COVID-19, deberá [aislarse](#) en su hogar y notificarnos lo antes posible al [\[INSERT contact information\]](#).** Al informarnos, nos permite tomar medidas adicionales para garantizar la seguridad de la comunidad educativa.
- **Manténgase al día con sus vacunas contra la COVID-19.** Las vacunas siguen siendo la mejor protección contra los cuadros graves de la enfermedad. [Programa una cita para vacunarse](#) o comuníquese con su proveedor de atención médica.

Volveremos a evaluar la situación cada semana. Tenga en cuenta que las infecciones diagnosticadas en estudiantes y personal educativo no son, necesariamente, consecuencia de la exposición en la escuela y, cuando en las escuelas se cumplen los protocolos de seguridad, es más probable que la transmisión de la COVID-19 ocurra fuera del entorno escolar.

Gracias por tener en cuenta esta información importante. Consideramos prioritarios la salud y el bienestar de nuestra comunidad. Si tiene preguntas o inquietudes, puede comunicarse con nosotros: [\[INSERT phone number, email address, and/or website link\]](#).

Atentamente,  
[\[INSERT Name, Title, and Contact information\]](#)

## COVID-19 TRAINING & INSTRUCTION

**Purpose:** The WUSD will provide effective training and instruction to protect employees from COVID-19 hazards. Below are applicable COVID-19 training videos and additional resources.
