

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Washington Unified School District

CDS Code: 1076778

School Year: 2026-27

LEA contact information:

John L. Sherron

Director of Curriculum & Instruction

jsherron@wusd.ws

(559) 495-5600

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### Budget Overview for the 2026-27 School Year

This chart shows the total general purpose revenue Washington Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Washington Unified School District is \$57,615,983, of which \$39,503,983 is Local Control Funding Formula (LCFF), \$9,874,134 is other state funds, \$3,691,489 is local funds, and \$4,546,377 is federal funds. Of the \$39,503,983 in LCFF Funds, \$11,511,327 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Washington Unified School District plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Washington Unified School District plans to spend \$57,700,246 for the 2026-27 school year. Of that amount, \$55,920,520 is tied to actions/services in the LCAP and \$1,779,726 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

## Debt Service and Capital Outlay

### Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Washington Unified School District is projecting it will receive \$11,511,327 based on the enrollment of foster youth, English learner, and low-income students. Washington Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Washington Unified School District plans to spend \$12,931,297 towards meeting this requirement, as described in the LCAP.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2025-26

This chart compares what Washington Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Washington Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Washington Unified School District's LCAP budgeted \$11,797,266 for planned actions to increase or improve services for high needs students. Washington Unified School District actually spent \$10,928,717 for actions to increase or improve services for high needs students in 2025-26.

The difference between the budgeted and actual expenditures of \$868,549 had the following impact on Washington Unified School District's ability to increase or improve services for high needs students:

Washington Unified is continuing to collect data regarding student achievement, absenteeism and other indicators of student need. Washington Unified spent the full amount allocated to increase and improve services for high needs students.

# Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Washington Unified School District	John L. Sherron Director of Curriculum & Instruction	jsherron@wusd.ws (559) 495-5600

## Plan Summary [2026-27]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

The Washington Unified School District (WUSD) serves approximately 2,400 students, grades pre-K through 12th grade and employs approximately 350 staff members. The District's boundaries encompass a diverse area ranging from agricultural farmland in the community of Easton, which lies just south of Fresno, and extends to a more urban section of Southwest Fresno that according to the United States Census Bureau has been found to have persistent poverty in the United States. 89.6% of the students in WUSD are considered socio-economically disadvantaged. Basic student demographics indicate that 80% are of Hispanic descent, 6.8% are Asian, 5% are Caucasian, 6% are Black or African American, 23% are English Learners, and 256 of our students come from Migrant families.

Washington Unified School District is comprised of American Union Elementary, West Fresno Elementary, West Fresno Middle, and Washington Union High schools, along with two preschools and three alternative education choices. Four non-unified K-8 schools also feed into our high school. Washington Unified schools exist to engage, educate, and empower students to achieve their College and Career goals. From positive relationships with students, parents, and community, to the ability of our teachers to deliver the best instruction for our students each and every day, we are dedicated to preparing students for the challenge of college and careers.

Washington Unified School District is unique and provides students with a diverse set of experiences that include the traditions of a more than century old district blended with a modern instructional program. We seek to provide a variety of rigorous and relevant educational programs designed to prepare students for college and career. We also partner with local organizations, including colleges. For example, through our partnership with Fresno City College and Reedley College, we offer over 32 courses for dual enrollment and over 650 students are enrolled and taking college classes while they are still enrolled in high school. High school students who complete dual enrollment

classes generally have to take fewer courses in college and save on the cost of attending college. Another important partner is the Fresno County Superintendent of Schools (FCSS). Through our partnership with FCSS, our staff receives important training related to instruction and compliance. We are currently working with FCSS to receive Direct Assistance to address academic performance gaps among struggling student groups.

Easton Continuation High School and Elm High school have been identified as Equity Multiplier schools within the LEA.

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Based on a review of performance on the California Dashboard, local indicators, a review of our annual self assessment tools, and a review of progress made towards LCAP goals, Washington Unified is most proud of the following:

- WUSD focus on supporting English Learners that has led to increased Reclassification rates from 67 based on the 2021 ELPAC Assessment and local criteria to 123 based on 2022, 144 in 2023 and another 141 based on the 2024 ELPAC and local criterion.
- WUSD AP passage rate based on a score of 3 or higher was 39% in 2021-22, 39% passage rate for 2022-23, 44% 2023-24 and 49% for the 2024 exam year
- WUSD Math EAP increased 5.59% for all students and 9.55% for our low income students.
- WUSD had over 500 students enrolled in a dual enrollment course through either Fresno City College or Reedley College.
- WUSD Early Literacy Plan which is focused on TK-2 students and the development in literacy and reading on grade level.
- Washington Unified made progress in our 2024 California Dashboard. CAASPP scores in ELA improved for all students, low income, with the exception of our English Learner student group which slightly decreased by .23% from the baseline year. CAASPP scores in math improved for our Low Income students from our baseline year, leading to a similar gain for all students. Furthermore, our chronic absenteeism rate improved 10.4% for our Low Income students. Furthermore, we decreased the suspension rate for African American, Foster Youth and Low Income students and our expulsion rate remains at zero students.

The following schools within the LEA received the lowest performance level (red) on one or more state indicators on the 2023 CA School Dashboard:

West Fresno Elementary

\*ELA

West Fresno Middle

\*ELA

\*Suspension

Elm High School

\*Graduation Rate

\*College & Career Indicator (CCI)

The following student groups within a school within the LEA received the lowest performance level (red) on one or more state indicators on the 2023 CA School Dashboard:

American Union

\*Suspension - White

West Fresno Elementary

\*ELA -All students, EL, Hispanic, SED

\*Suspension -African American, Homeless

West Fresno Middle School

\*ELA- All students

\*Suspension- All students, Hispanic, SED, SWD

Washington Union High School

\*Math- Hispanic

Elm High School

\*Graduation Rate- All students, Hispanic, SED

\*CCI- All students, Hispanic, SED

The following student groups within the LEA received the lowest performance level (red) on one or more state indicators on the 2023 CA School Dashboard:

\*ELA- African American, EL, Homeless

\*Math- African American, EL, Hispanic, Homeless, SED

\*Suspension- African American, Foster Youth, Homeless

Learning Recovery and Emergency Block Grant

The district has unexpended LREBG funds for the 2026-27 school year which can be found in Goal #3 Action 5. Our needs assessment revealed significant needs regarding English Learners and including Long-Term English Learners in the area of ELA and math. In response, Goal #3 Action 5 will focus on providing instructional aides to facilitate small group and individualized instructional support for these students. The action aligns with allowable fund uses in the area of Education Code (EC) Section 32526(c)(2)(B)(i). The needs assessment did not identify significant needs in the area of chronic absenteeism.

## Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Our district has established a collaborative partnership with the Fresno County Office of Education to enhance support for our students within the framework of Differentiated Assistance. Our SWD student population became eligible for DA due to their performance in Math (Priority 4) and Chronic Absenteeism Indicator (Priority 5). Our Homeless youth population became eligible due to their performance in ELA (Priority 4) and Chronic Absenteeism Indicator (Priority 5).

This collaboration targets homeless and students with disabilities with a goal to improve student performance in early literacy in order to address priority four. The work underway as part of technical assistance is our investment in WUSD's Early Literacy system, which is comprehensive in providing necessary professional development and cycles of improvement for teachers and paras to provide research-based instructional practices in alignment with core curriculums to improve performance in ELA and math.

WUSD implemented the continuous improvement process through a series of sessions that have been designed to employ research-based strategies rooted in the improvement science model. These sessions have been structured into four distinct phases:

Phase 1: This phase entails articulating the problem of practice, conducting a thorough data analysis, processing the findings, and integrating research-based knowledge.

Phase 2: Here, participants review the user perspective, research plan, and accumulated knowledge, aiming to identify root causes through rigorous research.

Phase 3: In this phase, participants will delve deeper into research-based knowledge, develop a clear aim, identify key drivers, generate change ideas, and meticulously plan the improvement journey.

Phase 4: The Improvement Journey phase involves monthly meetings throughout the academic year to assess the effectiveness of the Theory of Improvement and ensure that the identified changes are yielding positive outcomes.

Our work is reflected in Goal 5 Action 1.

## **Comprehensive Support and Improvement**

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### ***Schools Identified***

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Elm High School

### ***Support for Identified Schools***

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Washington Unified School District has one school that has been identified as Comprehensive Support and Improvement (CSI) school, Elm High School.

School Plans for Student Achievement (SPSA) are utilized to meet the requirements for CSI plans. School leaders, teachers, parents, and representatives from the central office contribute to the development, implementation, monitoring, and evaluation of these plans.

Sites are provided professional learning to understand identification status and plan requirements, promote data clarity, and support procedural troubleshooting. Individual school sites and district leadership form guiding groups called CSI Teams/Leadership Teams. These teams are comprised of a variety of site personnel, and representatives from the district office. Teams work in tandem to support student performance growth. In addition, leaders from the district office act as a support system for all parties to facilitate collaboration, assist with determining actions, ensure timely plan monitoring, and evaluate site progress towards established goals

District leadership works closely with Elm High School throughout the SPSA process and takes site teacher leaders and administration teams through a cycle of inquiry and action. CSI school sites fit within the highest level of support from district leadership. These sessions will be in connection to the CSI site regular school leadership coaching and professional learning supports. These high level supports are guided through a collaboration between site leadership, site teacher leaders, district leadership, instructional coach and can request supports outside of the school as needed.

All sites utilize the SPSA Tool, creating a common practice across the district to complete the mandatory needs assessment and action plans. The tool has several elements. The needs assessment element of the tool provides site specific performance data in alignment with the California School Dashboard. Additionally, high schools analyze graduation rate and 'college and career' readiness data. Internal data allows for further analyzation and verification of specific site needs. Examples of this data include, but are not limited to, percentage of D's and F's, student engagement, and interim diagnostic testing. This process supports school sites to create an intervention plan and ensure quality implementation of strategies.

During plan development, sites are provided professional learning and guiding documents, initiating the process for discussion and feedback between sites and the district office. Leaders from the district office collaborate to construct the guidance for this process to ensure compliance, alignment with district goals, and concurrence with site practices and investments.

Site leaders collaborate with their teams to identify appropriate interventions, actions, use of funds and strategies to support student achievement. CSI Teams/Leadership Teams assist in identifying appropriate evidence-based interventions. Sites utilize the SPSA Supplemental and Support Resources guide which includes a menu of vetted options for evidence-based interventions that can be selected based on the individual needs of the site. The menu includes district office supports that are researched-based actions and/or strategies that are proven effective and appropriately scalable. Additionally, the designated district CSI leaders consult with the district administrative cabinet to deploy expertise and resources to best meet the needs of each site. Interventions and expenditures are implemented in alignment with greatest areas of need at each site as uncovered by the needs assessment and correlating data.

CSI Teams/Leadership Teams complete a root cause analysis and determine areas of focus for the site. Also, the team equips site leaders with relevant data and provides support with disaggregation of data to determine disproportionality and identify possible resource inequities. Examples of inequities could include personnel needs, scheduling adjustments, or additional professional learning. The findings are incorporated into a SPSA monitoring tool throughout the school year to support progress towards stated goals, and to ensure that they are being addressed through the implementation of the plan.

Educational Partner feedback is documented in each SPSA, and sites must provide evidence, progress monitoring, and a description of the feedback received from staff, parent/community members, and students.

## ***Monitoring and Evaluating Effectiveness***

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The designated CSI lead, with the support of the Director of Curriculum & Instruction, works directly with Elm High School to monitor and evaluate the School Plans for Student Achievement (SPSA) and related site metrics contributing to state identification. Implementation, monitoring, and evaluation occur in a variety of intentional structures for Elm High School, such as the monthly CSI Meetings which include various staff and/or departments within the school district to assist with the implementation plan. During the monthly CSI Meetings, the Plan, Do, Study, Act (PDSA) is utilized to ensure the effectiveness of the overall efforts/goals. Data Analysis/Review (CA Dashboard, reports, interviews, surveys) to develop a research plan, and provide one-on-one support with the designated CSI lead.

Site leads conduct bi-weekly monitoring of actions and progress meetings. Coaching is provided in areas of need, including, but not limited to additional data monitoring and action implementation assistance. The designated representative provides support with monitoring to ensure sites have the data (based on the CA Dashboard Indicators) and resources (trainings and/or professional development in various areas such as: Social Emotional Learning, Professional Learning Community, Data Cycles, and technology) needed to drive and implement work/actions.

Throughout the Continuous Cycle of Improvement Process, plans are reviewed and/or revised and evaluated by site and district leaders. The evaluation process includes examining the level of action effectiveness in alignment with the correlating site metrics. Based on the results, site leaders will pivot (revise plan based on data) and/or begin another Cycle of Continuous Improvement, determining areas of focus as pertained to the site plan. Leaders of this work share progress with District Administrative Cabinet to provide updates, requests for additional supports that may be needed to accelerate progress to meet the SPSA goals, and/or to relay how the plan is improving/impacting the system as a whole.

# Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers, including the Certificated Bargaining Unit	<p>Teachers had the opportunity to review WUSD Goals, Metrics, and the data associated with each metric. Teachers provided feedback on each metric by completing a plus/delta activity. Local Bargaining Units had the opportunity to review WUSD Goals, Metrics, and the data associated with each metric.</p> <p>WFES Meeting: March 4, 2026            WFMS Meeting: March 4, 2026            AU Meeting: March 4, 2026            WUHS Meeting: March 4, 2026            Alt. ED. Meeting: March 4, 2026</p> <p>In addition, surveys were distributed to teachers to gather feedback for the plan.</p>
Principals	<p>Principals had the opportunity to review WUSD Goals, Metrics, and the data associated with each metric. Principals provided feedback on each metric by completing a plus/delta activities. Principals also reviewed all LCAP outcomes and provided feedback. Lastly, principals reviewed educational partner feedback/trends and had an open forum for dialogue. Meetings were held March 3, April 14, and May 12, 2026.</p>
Administrators	<p>Administrators had the opportunity to review WUSD Goals, Metrics, and the data associated with each metric. Administrators provided feedback on each metric by completing a plus/delta activity. In addition, administrators had the opportunity to review all LCAP outcomes and provided feedback. Meetings were held were held March 3, April 14, and May 12, 2026.</p>

Educational Partner(s)	Process for Engagement
Other School Personnel, Including the classified Bargaining Unit	<p>Other school personnel had the opportunity to review WUSD Goals, Metrics, and the data associated with each metric. Other school personnel provided feedback on each metric by completing a plus/delta activity. Local Bargaining Units had the opportunity to review WUSD Goals, Metrics, and the data associated with each metric.</p> <p>WFES Meeting: March 4, 2026  WFMS Meeting: March 4, 2026  AU Meeting: March 4, 2026  WUHS Meeting: March 4, 2026  Alt. ED. Meeting: March 4, 2026</p> <p>In addition, surveys were distributed to gather feedback for the plan.</p>
Parents	<p>Parents had the opportunity to review WUSD Goals, Metrics, and the data associated with each metric. Meeting was held May 19, 2026. Parents provided feedback on each metric by completing a plus/delta activity.</p> <p>In addition each school site met with SSC and provided an opportunity for feedback. School Site Council Meetings were held on the following dates:  WFES: March 11, 2026  WFMS: March 18, 2026  WUHS: March 24, 2026  AU: April 27, 2026</p> <p>The district office also held an LCAP parent night on May 19, 2026. Lastly, surveys were distributed to parents in English and Spanish to gather feedback for the plan.</p>
Students	<p>Education Pathway Students at WUHS had the opportunity to review WUSD Goals, Metrics, and the data associated with each metric. Students provided feedback on each metric by completing a reflection sheet. Meetings were held on April 16, 2026. In addition, surveys were distributed to students in grades 3-12 to gather feedback for the plan.</p>
Equity Multiplier Site-Specific Engagement	<p>Educational partners including staff, parents, and students from Elm High and Easton High met on April 30, 2026 to provide feedback on the use of Equity Multiplier funds within the plan. In addition, surveys were distributed to gather feedback for the plan.</p>

Educational Partner(s)	Process for Engagement
SELPA	The district consulted with the SELPA to ensure actions are in alignment with annual assurances support plan for the education of SWD. Meeting was held April 16, 2026.
Parent Advisory Committee (PAC)	Parent Advisory Committee, including two student representatives, had an opportunity to understand the process and purpose of the LCAP. In addition, the Parent Advisory Committee had the opportunity to review WUSD Goals, Metrics, and the data associated with each metric. Parents and students provided feedback on each metric by completing a plus/delta activity. The Parent Advisory Committee was also presented a draft copy of the LCAP and an opportunity to provide feedback. Meetings were held March 19, 2026 & May 18, 2026. PAC was provided a draft of the LCAP on May 15, 2026. There were no comments submitted to the Superintendent for a written response.
English Learner Advisory Committee (DELAC)	English Learner Advisory Committee had an opportunity to understand the process and purpose of the LCAP. In addition, the English Learner Advisory Committee had the opportunity to review WUSD Goals, Metrics, and the data associated with each metric. Parents provided feedback on each metric by completing a plus/delta activity. The English Learner Advisory Committee was also presented a draft copy of the LCAP and an opportunity to provide feedback. Meetings were held March 19, 2026 & May 15, 2026. DELAC was provided a draft of the LCAP on May 18, 2026. There were no comments submitted to the Superintendent for a written response.
Public Comment	From May 18- 29th, 2026 a draft of the LCAP was provided to the public. WUSD sent out a district wide phone dialer to the community throughout the district directing community members to our website where the draft was posted. Community members had ten business days to email the superintendent question or comments concerning the draft plan.
Public Hearing	A public hearing was held on May 13, 2026 to solicit the recommendations and comments of members of the public regarding the specific actions and expenditures proposed to be included in the LCAP or annual update to the LCAP. No comments were received.
Adoption by the governing board	Midyear report was presented to the governing board on February 11, 2026.

Educational Partner(s)	Process for Engagement
	The governing board adopted the LCAP at a public meeting held on June 29, 2026.
Budget Adoption and Local Indicator Report to governing board	At the same public meeting meeting where the LCAP was adopted, the governing board adopted the budget on June 29, 2026. The governing board was also provided with the Local Indicator Report at this same meeting.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Teachers and other school personnel, including the bargaining units: Educational Partners were pleased with the professional learning series focused on Early Literacy, designated and integrated English Learner series, and the focus on math in grades 6-12. In addition, they were proud of the district's reclassification rate. Dual enrollment was noted as a positive because over 600 students were enrolled in courses earning college credit. Teachers & staff felt WUSD has strong family engagement nights/opportunities. Several comments were centered around data. District is doing good by increasing the graduation rate, decreasing chronic absenteeism, decreasing suspensions and maintaining zero expulsions. Teachers also were very proud of all of the work our tutors are doing throughout the district. Teachers and staff felt very safe working throughout the district. They felt we needed to continue to offer and improve interventions in ELA and Math.

Administrators and Principals: Educational partners were proud of the gains made in family engagement nights/opportunities, strong early literacy program and staff development in general. In addition, data analysis cycles and peer lesson studies centered around math. An area noted for continued work is in the area of attendance. WUSD is very close to meeting our attendance goal but has come up short the past few years. Also noted was the chronic absenteeism rate; rate is coming down but not far enough.

Parents and Community members: Parents appreciated all the elective course offerings along with the pathways at the high school. Parents and community members were excited about the Community Schools grant but asked for more communication in/about community schools. Parents would like to see continued progress in the areas of parent communication about the progress of their students and events taking place. Parents also expressed a continued desire to support English Learners. Parents acknowledged the district is providing a variety of counseling and mental health services and wanted a continued focus in these areas. Parents were very appreciative of the partnership with Fresno County Sheriff's office. There is a strong sense of safety throughout the district.

Equity Multiplier: Educational Partners from Elm High School and Easton Continuation felt that the addition of a Intervention Specialist alongside our school counselor has benefited the students by helping them to set goals, organize tasks, and stay on track for earning a diploma.

Students: Were pleased and wanted the pathway system at Washington Union to remain strong with opportunities. Students also expressed that the majority of teachers throughout the district are supportive and care for them. Students wanted additional PE/recess equipment.

The goals of the LCAP were originally created with educational partner input. This year, educational partner input continues to demonstrate that our efforts are focused in the right direction. The following will continue to remain the focus of this plan: 1) Providing High-Quality

Teachers and Resources for Students, 2) Increasing Parent and Community Communication and Participation, 3) Improving Student Achievement for All Students, 4) Maintaining a Safe and Positive School Climate and 5) Improve Early Literacy Rates for Groups Identified for Direct Technical Assistance. 6) Decrease suspension rate, improve attendance rate, and maintain Easton High's graduation rate. 7) Increase Elm High graduation rate and College and Career Rate. Both fiscal and human resources will be dedicated to meeting the District's goals in these critical areas.

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
1	The Washington Unified School District will provide a collaborative educational environment that effectively recruits, trains, supports, and retains highly effective teachers and provides all students the basic services and materials needed to participate successfully in a 21st Century educational experience.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning) Priority 2: State Standards (Conditions of Learning) Priority 8: Other Pupil Outcomes (Pupil Outcomes)
---

An explanation of why the LEA has developed this goal.

Based on state and local assessment data, educational partner consultation, and other collected data the district identifies this Goal and subsequent Actions as priorities for the district. Fully credentialed teachers who are effectively supported help students achieve educational success. Sufficient access to standards-aligned instructional materials and a safe and clean environment maximizes student learning. The actions and metrics included below will help achieve the goal.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	Appropriately assigned and fully credentialed teachers.	In 2022-23, WUSD 79.3% of teachers held a clear credential  Data Source: CA School Dashboard	In 2023-24, WUSD had 82.4% of teachers held a clear credential.  Data Source: CA School Dashboard	In 2024-25, WUSD had 83.4% of teachers held a clear credential.  Data Source: CA School Dashboard	98% of teachers held a clear credential and appropriately assigned throughout the district.	4.1% increase
1.2	Pupils will have access to standards-aligned instructional materials.	In 2023-24, 100% of students have access to standards-aligned instructional materials according to the	In 2024-25, 100% of students have access to standards-aligned instructional	In 2025-26, 100% of students have access to standards-aligned instructional	100% of students will have access to standards-aligned instructional materials.	Remains 100% standards aligned.

		Williams Report and internal documentation.	materials according to the Williams Report and internal documentation.	materials according to the Williams Report and internal documentation.		
1.3	Facilities maintained in good repair.	In 2023-24, all school sites were rated as being in “good or exemplary” repair according to the annual Facilities Inspection Tool (FIT).	In 2024-25, all school sites were rated as being in “good or exemplary” repair according to the annual Facilities Inspection Tool (FIT).	In 2025-26, all school sites were rated as being in “good or exemplary” repair according to the annual Facilities Inspection Tool (FIT).	All facilities will be maintained in "good or exemplary" repair as rated by the annual Facilities Inspection Tool (FIT).	Remains all sites in "good" or "exemplary" repair.
1.4	Implementation of state standards for all students.	In 2023-24, state standards were fully implemented as verified by data collection obtained through routine classroom walk-throughs.	In 2024-25, state standards were fully implemented as verified by data collection obtained through routine classroom walk-throughs.	In 2025-26, state standards were fully implemented as verified by data collection obtained through routine classroom walk-throughs.	State standards will be fully implemented as verified by data collection obtained through routine classroom walk-throughs.	Remains standards are fully implemented.
1.5	Ensure EL students have access to CCSS and ELD standards.	In 2023-24, 100% of English Learners received Designated and Integrated ELD support aligned to the ELD Standards & CCSS as measured by master schedules & routine classroom walk-throughs.	In 2024-25, 100% of English Learners received Designated and Integrated ELD support aligned to the ELD Standards & CCSS as measured by master schedules & routine classroom walk-throughs.	In 2025-26, 100% of English Learners received Designated and Integrated ELD support aligned to the ELD Standards & CCSS as measured by master schedules & routine classroom walk-throughs.	100% of English Learners received designated and integrated ELD support aligned to the ELD Standards and CCSS as measured by master schedules and routine classroom walk-throughs.	Remains 100% of EL students have access to standards.

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The LEA used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal One supported the progress toward meeting the goal of providing a collaborative educational environment that effectively recruits, trains, supports, and retains highly effective teachers and provides all students the basic services and materials needed to participate successfully in a 21st-century educational experience.

### Action 1.1 - Staff, Supplies & Services

Implementation Status: 5 - Full Implementation and Sustainability. WUSD HR Department has clear policies and procedures for hiring and the recruiting of highly qualified staff.

No substantive difference in planned action compared to the actual implementation. In addition, the district supplied staff with the supplies and services required.

### Action 1.2 - Beginning Teacher Induction

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a comprehensive teacher induction program. WUSD academic coaches work with FCSS and beginning teachers to ensure our program is fully implemented.

No substantive difference in planned action compared to the actual implementation.

### Action 1.3 - Texts and Instructional Materials

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has clear policies and procedures to provide core instructional and supplemental curriculum adoptions. WUSD provided all necessary instructional materials.

No substantive difference in planned action compared to the actual implementation.

### Action 1.4 - Technology

Implementation Status: 5 - Full Implementation and Sustainability. Technology such as computer hardware, including learning programs and supports for students were provided.

No substantive difference in planned action compared to the actual implementation.

### Action 1.5 - Professional Development

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a robust staff development calendar that included targeted integrated and designated EL/LTEL professional development, Early Literacy focused professional learning and a concentrated effort within grades 3-12 in the area of math. In addition, WUSD held two Ed. Tech Exchange (one per semester) staff developments for the entire teaching staff. There were a variety of break-out sessions for teachers to pick and attend focusing in the area of technology. WUSD is a data driven district that routinely analyzes best practices, walk-through data, assessment data and feedback from staff to inform decision making.

No substantive difference in planned action compared to the actual implementation.

#### Action 1.6 - PLC Facilitators/Lead Teachers

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has established PLCs with the PLC Facilitator leading/guiding the meetings for several years. Our PLCs analyze student progress on a routine basis. An important aspect of the PLC is identifying students gaps and utilizing high impact instructional strategies to narrow the gaps as soon as possible.

No substantive difference in planned action compared to the actual implementation.

#### Action 1.7 - Classroom Technology Support

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a fully staffed IT Department. IT Department ensures technology is maintained in good working order and is updated on a routine basis to ensure high quality equipment is available for student achievement. In addition, any supplemental programs are reviewed routinely by staff to ensure our students are supported with classroom technology.

There was an increase in spending and therefore a difference in planned action compared to the actual implementation.

Overall Successes: WUSD overall success are highlighted in the following: 1. Increase of 1% of teachers that hold a clear credential. 2. All facilities were are maintained in the good/exemplary repair. 3. Organizing and executing a comprehensive professional development calendar throughout the district to ensure teachers are being supported in the designated focus/goals of the district.

Overall Challenges: WUSD did not experience any significant challenges while executing Goal #1.

### An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following actions contain a material difference between budgeted and actual expenditures:

1.3 Under Budget – WUSD chose not to move forward with any curriculum adoptions this year, resulting in lower expenditures than originally planned.

1.4 Over Budget – WUSD replaced Chromebooks districtwide to maintain our 1:1 student-to-device ratio, leading to higher costs.

1.7 Over Budget – Additional technology staff were hired to strengthen tech support, resulting in increased spending.

### A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The LEA used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics. Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal One helped make progress towards the LEA's goal of providing a collaborative educational environment that effectively recruits, trains, supports, and retains highly effective teachers and provides all students with the basic services and materials needed to participate successfully in a 21st-century educational experience.

Action(s): Action 1: Staff, Supplies, & Services, Action 2: Beginning Teacher Induction, Action 5: Professional Development, Action 6: PLC Facilitators

Effectiveness of Action(s): Effective

Metric(s): Appropriately assigned and clear credentialed teachers, CAASPP ELA/Math scores, A-G Eligibility, LTELs, ELPI Rate and Reclassification

Analysis Statement: Washington Unified had 83.4% of our teachers that held a clear credential which fell short of our goal of 95% of our teachers will hold a clear credential. However, we did increase our clear credentialed teachers by 1%. We believe that our recruiting and retention efforts are working. Washington Unified made progress in our 2025 California Dashboard. CAASPP scores in ELA increased for all students and low income students from the baseline year. Our English Learners decreased 2.23% from the baseline year and we also decreased our ELPI score by 8.4%. Our Reclassification rate did drop to 14.8% but this is due to our overall reclassification rate over the last few years increasing. The more we increase reclassification rate the less students need to be reclassified which indicates more work in this area is required. 7.89% of our LTEL students met or exceeded standards in ELA CAASPP exam increasing .58% from the baseline year. CAASPP scores in math improved for our English Learners and low income students groups from our baseline year, leading to a similar gain for all students. 3.95% of our LTEL students met or exceeded standards in math which indicates a continuous focus on our EL Program. However, this was an increase of 2.34% from the baseline year. For the 2024-25 dashboard, our A-G rate was 34.4% which is a 4.6% decrease from our baseline year. Overall, our progress is due in part to a comprehensive staff development program, including induction which focuses on teachers and the implementation of high impact instructional strategies for the identified groups. Furthermore, PLC Facilitators are an integral part of our progress. Departments are required to routinely analyze data of the identified students groups and discuss best practices. Staff, supplies and services also led to the improvements for our students. Because these actions were mostly effective, we will continue these actions into the 2026-27 LCAP Plan.

Action(s): Action 3: Texts and instructional materials, Action 4: Technology, Action 7: Classroom technology support

Effectiveness of Action(s): Effective

Metric(s): Pupils will have access to standards-aligned instructional materials, implementation of state standards for all students, and ELs having access to CCSS and ELD standards, CAASPP ELA/Math scores.

Analysis Statement: Washington Unified students have full access to textbooks and instructional materials. We have a robust technology department that ensures technology is maintained and available throughout the district for students, ensuring students have access to 21st Century learning. 100% of Washington Unified students have access to common core standards and our English Learner population has full access to ELD standards. Washington Unified made progress in our 2025 California Dashboard. CASSPP scores in ELA improved for all students, and low income students. Our English Learners decreased 2.23% from the baseline year. CASSPP scores in math improved for our English Learners and low income students groups from our baseline year, leading to a similar gain for all students. Because these actions were effective, as demonstrated by WUSD meeting our desired outcomes for 100% of our students having access to and implementation of standards for all students in CCSS and ELD, we will continue these actions into the 2026-27 LCAP Plan.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

There will be no changes made to the planned goal, metric, target outcomes, or actions for the coming school year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

## Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Staff, Supplies, Services	Basic educational and operational expenditures including but not limited to staffing, supplies, services and other expenditures.	\$34,188,554.00	No
1.2	Beginning Teacher Induction	The district will continue to provide induction for all beginning teachers, including training on best instructional practices, differentiation, scaffolding, and implementing culturally relevant practices.	\$17,036.00	Yes
1.3	Texts and Instructional Materials	Purchase standards-aligned texts and instructional materials.	\$139,850.00	No
1.4	Technology	The district will continue to purchase technology such as computer hardware and learning programs.	\$29,075.00	Yes
1.5	Professional Development	The district will continue to provide professional development focusing on best first instruction, and including targeted strategies for English Learners and LTEs.	\$223,743.00	Yes
1.6	PLC Facilitators	The District will provide PLC Facilitator stipends for disaggregation of data, progress monitoring on state standard implementation, in order to increase student achievement.	\$80,314.00	Yes
1.7	Classroom Technology Support	The District will provide ongoing technical support to ensure staff and students have access to fully functioning technology and support for learning.	\$593,215.00	Yes

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
2	The Washington Unified School District will operate with strong parent and community involvement, including efficient and effective communication and opportunities for parents to participate in their own educational development.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)

An explanation of why the LEA has developed this goal.

Based on state and local assessment data, educational partner consultation, and other collected data the district identifies this Goal and subsequent Actions as priorities for the district. Opportunities for parents and our community to participate and communicate effectively need to continue to grow in order for students to reach their academic and social-emotional goals. Parents also need to be supported in their efforts to become informed and educated so that they can actively participate in the WUSD community and promote educational success for their children. The actions and metrics included below will help achieve the goal.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	Seek parent input & promote parental participation in programs for Low Income, EL, and Foster Youth students and students with exceptional needs.	Full Implementation according to the local indicator self-reflection tool Fall 2023 Dashboard.	Full Implementation according to the local indicator self-reflection tool Fall 2024 Dashboard.	Full Implementation according to the local indicator self-reflection tool Fall 2025 Dashboard.	Full Implementation and Sustainability according to the Fall 2026 Dashboard.	Maintained Full Implementation
2.2	Maintain strong parent communication.	According to local data, in 2023-24 100% of school sites utilized PowerSchool communication/Parent Square to communicate with Parents.	According to local data, 2024-25 100% of school sites utilized PowerSchool communication/Parent Square to	According to local data, 2025-26 100% of school sites utilized PowerSchool communication/Parent Square to	100% of school sites utilize PowerSchool Communication/Parent Square to communicate with Parents. WUSD will offer parent education classes, including English acquisition classes, for all parents.	Maintained

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The LEA used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Two supported the progress toward meeting the goal of operating with strong parent and community involvement, including efficient and effective communication and opportunities for parents to participate in their own educational development.

### Action 1 - Parent Engagement, Support Services, & Supplies

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a comprehensive parent engagement process delivered by each site within the district. In addition, WUSD employs a Media Communications Specialist to ensure robust communication throughout the district to engage and inform our community.

No substantive difference in planned action compared to the actual implementation.

### Action 2 - PowerSchool Communication/Parent Square

Implementation Status: 4 - Full Implementation. WUSD implemented PowerSchool (SIS) three school years ago. Parent Square the communication portal for families is still utilized with the adoption of Power School. However, in year three of the adoption of PowerSchool the process for signing parents up is still in the implemented but not yet sustainable. We have a very high percentage of families signed up

for Parent Square but are committed to 100% for sustainability purposes. However, WUSD provides additional opportunities to ensure parent participation throughout the district. For example, flyers, marquees, our Grapevine newsletter, are all examples of creating community. No substantive difference in planned action compared to the actual implementation.

### Action 3 - Parent Education Classes

Implementation Status: 5 - Full Implementation and Sustainability. Our Adult Education Program offers a year-around local ESY classes and it's open for all parents in WUSD.

No substantive difference in planned action compared to the actual implementation.

Overall Successes: Parent education classes continue to be a success for our district. Based on feedback from our community we will continue offering classes through our Adult Education Program. In addition, our Media Communication Specialist position routinely communicates with the community; keeping our community abreast of all the happenings throughout the district. Overall, educational partners are proud of all of the communication that goes out from the sites as well as the district office.

Overall Challenges: Implementation of a relatively new (3rd year) (SIS) has continued with some challenges. The main challenge has been student registration, reregistration, and the creation of PowerSchool parent portals. In addition, ensuring that all of our parents are signed up with Parent Square which is the main communication channel for our families. As we continue to refine our process with the new system, we will get better in this area.

## An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following actions contain a material difference between budgeted and actual expenditures:

2.2 Under Budget – Software costs were lower than expected due to a direct license with ParentSquare after the PowerSchool transition.

2.3 Under Budget – Adult Education and Community School funds were used in place of the originally budgeted source

## A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The LEA used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal #2 helped make progress towards the LEA's goal to operate with strong parent and community involvement, including efficient and effective communication and opportunities for parents to participate in their own educational development.

Action(s): Action 1: Parent Engagement, Support Services Action 3: Parent Education Classes

Effectiveness of Action(s): Effective

Metric(s): Seek parent input & promote parental participation in programs for Low Income, EL, and Foster Youth students and students with exceptional needs, maintain strong parent communication, sense of safety and school connectedness.

Analysis Statement: Washington Unified has a robust parent engagement program and have had 4,393 parents attend events throughout the district this year. We also utilize the Local Indicator Self-reflection Tool and we are rated at Full Implementation and Sustainability. We have

all of the support services and supplies necessary to support and promote parent engagement. According to the metrics we maintained strong parent communication at 100%. Parent sense of school connectedness and school safety were both above 80%. In addition, our Media Communication Specialist routinely corresponds with our LI, EL, and FY students. One of the avenues of communication is our digital Grapevine edition of all of the happenings throughout the district. The Grapevine highlights performances, celebrations, etc. bringing all the events to the community and students. We believe our efforts in parent communication and offering education classes, including English acquisition classes for all parents are resulting in a sense of school connectedness. Because these actions were effective, we will continue these actions into the 2026-27 LCAP.

Action(s): Action 2: PowerSchool Communication Parent Square

Effectiveness of Action(s): Effective

Metric(s): Maintain strong parent communication. Parent Communication, and CAASPP ELA/Math scores.

Analysis Statement: In Washington Unified has 100% of our school sites utilizing Parent Square to communicate with our families. Routine correspondence is an expectation for all sites. There were 4,393 parents that attended events throughout the district this year. Our parent education courses helped increase student achievement by helping parents better understand what the children needs and to support their learning at home. Washington Unified made progress in our 2025 California Dashboard. CAASPP scores in ELA increased for all students and low income students from the baseline year. Our English Learners decreased 2.23% from the baseline year indicating a need to provide continued targeted parent education in language development. CAASPP scores in math improved for English Learners and low income students groups from our baseline year, leading to a similar gain for all students. Because these actions were effective, we will continue these actions in the 2026-27 LCAP.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on a deep reflection, we are satisfied with our progress with Goal #2 and all subsequent actions.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Parent Engagement, Support Services, and Supplies	The District will facilitate parent engagement, support services, and supplies in order to engage parents. The district will also provide a Media Communications Specialist to increase and facilitate parent ,student, and community engagement.	\$198,847.00	Yes

Action #	Title	Description	Total Funds	Contributing
<b>2.2</b>	PowerSchool Communication/Parent Square	The District will provide multiple methods of parent communication about important events, student progress, and opportunities for participation designed to build guardian awareness, create community, and ensure greater voice and partnership between the district and parents.	\$23,380.00	Yes
<b>2.3</b>	Parent Education Classes	The district will provide for parent education, including language acquisition courses for parents which will empower them to support student learning by feeling confident to participate in school policy and decision-making, understand how to support the demands of school, and being able to access necessary language skills in order to fully contribute to their student's academic activities.	\$48,014.00	Yes

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
3	The Washington Unified School District will be a district of academic excellence that provides equity and access for all students in all subgroups, utilizing academic rigor through best first instruction and systematic intervention to ensure that all students graduate college and career ready.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes) Priority 7: Course Access (Conditions of Learning) Priority 8: Other Pupil Outcomes (Pupil Outcomes)
---

An explanation of why the LEA has developed this goal.

Based on state and local assessment data, educational partner consultation, and other collected data the district identifies this Goal and subsequent Actions as priorities for the district. 100% of our students do not currently meet or exceed their grade-level standards in English Language Arts and Mathematics and therefore, WUSD will continue to strive for academic excellence. The actions and metrics included below will help achieve the goal.
---

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The LEA used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Three supported progress toward meeting the goal of providing equity and access for all students in all subgroups, utilizing academic rigor through best-first instruction and systematic intervention to ensure that all students graduate college and career-ready.

#### Action 1 - Reading Intervention Teachers

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a comprehensive reading intervention program in place to support students. The intervention team comes together quarterly to analyze data and discuss best practices.

No substantive difference in planned action compared to the actual implementation.

#### Action 2 - Intervention Staff

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has intervention staff at all sites throughout the district to support students.

No substantive difference in planned action compared to the actual implementation.

#### Action 3 - Intervention Curriculum

Implementation Status: 5 - WUSD has a comprehensive intervention program that is fully staffed along with the materials and curriculum to support students.

Additional ELA and Math intervention was added resulting in an increase difference in planned action compared to the actual implementation.

#### Action 4 - Learning Directors

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has Learning Directors at four of the five sites throughout the district. Learning Directors provide direct support for students that are low income in the areas of academics, socially, and behaviorally. In addition, Learning Directors provide instructional support for teachers by disaggregating data and providing overall program support.

No substantive difference in planned action compared to the actual implementation.

#### Action 5 - Instructional Aides

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has instructional aides in grades K-2 district wide. Instructional aides are instrumental in supporting students with their foundational learning.

The action was fully implemented differently than planned. LREBG funds were utilized to pay for staffing instead of LCFF funding.

#### Action 6 - Library Media Services

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a fully staffed library and media services program to support students in this area.

No substantive difference in planned action compared to the actual implementation.

#### Action 7 - Supplemental Online Academic Support Programs

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a robust IT Department. Annually, inventories are reviewed and programs updated to support our Low Income, EL, and Foster Youth students.

No substantive difference in planned action compared to the actual implementation.

#### Action 8 - WUHS PASS Program

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has had a version of our PASS program/class at Washington Union High School for several years. Teachers are trained in the AVID model and support students on a daily basis.

No substantive difference in planned action compared to the actual implementation.

#### Action 9 - English Learner Curriculum and Language Acquisition

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a comprehensive English Learner Program. The EL Coordinator reviews curriculum and language acquisition programs on an annual basis. Furthermore, there are processes and procedures in place to ensure teacher feedback is heard and acted upon. All EL supplemental curriculum was provided to each site throughout the district. However, there were no new adoptions which resulted in a difference in planned action compared to the actual implementation.

#### Action 10 - This action intentionally left blank

#### Action 11 - EL Staff

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a comprehensive EL Program fully staffed with teachers and aides to support our English Learners.

No substantive difference in planned action compared to the actual implementation.

#### Action 12 - This action intentionally left blank

#### Action 13 - Counselors

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a system in place to support student social, emotional, and academic counseling. Each site throughout the district has counselors available to support students.

No substantive difference in planned action compared to the actual implementation.

#### Action 14 - Summer School

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a comprehensive summer school and extended learning opportunity program in place for several years.

No substantive difference in planned action compared to the actual implementation.

#### Action 15 - After School Program

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a comprehensive after school program in place. The after school program is fully staffed and additional staffing was provided ensuring a myriad of opportunities are available for students.

WUSD added additional staffing which resulted in a difference in planned action compared to the actual implementation.

#### Action 16 - Full Access to Courses and Electives

Implementation Status: 5 - Full Implementation and Sustainability. WUSD students have full access to courses and electives. At the secondary level, all students are met with at a minimum of once per year to review their path toward graduation.

No substantive difference in planned action compared to the actual implementation.

#### Action 17 - CTE Courses and Electives

Implementation Status: 5 - Full Implementation and Sustainability. WUSD and specifically Washington Union High School has a wide range of CTE courses and electives. All students are offered a pathway beginning in their 9th grade year. In addition, WUSD continued to expand CTE offerings in the various CTE Pathway courses.

No substantive difference in planned action compared to the actual implementation.

#### Action 18 - Supplemental Instructional Materials and Supplies

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has process and procedures in place to ensure supplemental instructional materials and supplies and reviewed annually. Furthermore, feedback opportunities are offered to staff concerning the needs in this area.

No substantive difference in planned action compared to the actual implementation.

#### Action 19 - Academic Coaches

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has had academic coaches in place for several years. Academic coaches serve a wide variety of teachers in our district and also executes professional development district-wide.

No substantive difference in planned action compared to the actual implementation.

#### Action 20 - Class Size Reduction (Grades 4-12)

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has had class size reduction efforts in place for several years in grades 4 through 12.

No substantive difference in planned action compared to the actual implementation.

Overall Successes: All of the actions in Goal 3 supported progress toward Washington Unified School District to be a district of academic excellence that provides equity and access for all students in all subgroups, utilizing academic rigor through best first instruction and systematic intervention to ensure that all students graduate college and career ready. Actions 3.1 - 3.20 were fully implemented. Our math and ELA progress on the Smarter Balanced Assessments change from year to year. For the 2025 Ca. Dashboard, WUSD increased in math scores over all and several subgroups increased as well. In addition, our overall ELA scores increased from the baseline year. Another area of success has been our Advanced Placement student passing rate that has increased to 53% which is an increase of 4%. Lastly, our EAP math scores have increased along with a significant increase in dual enrollment throughout the high school.

Overall Challenges: WUSD has had challenges concerning Goal #3. As stated above, our math Smarter Balanced Assessment scores did improve but we also have work to do in this area. Furthermore, our LTEL and EL students continue to score below all students. Lastly, our CAST results decreased slightly from the 2024 dashboard but is slightly below our baseline year and therefore this indicates the need of attention in this area.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following actions contain a material difference between budgeted and actual expenditures:

- 3.1 Under Budget – Additional staff could not be hired, and planned training was not conducted, resulting in unspent funds.
- 3.3 Over Budget – An additional intervention program was implemented for math and ELA, leading to increased spending.
- 3.5 - One time funding (LREBG) was utilized instead of LCFF funding.
- 3.8 Under Budget – Other funding sources were used for this action, reducing the need for planned expenditures.
- 3.9 Under Budget – WUSD opted not to proceed with any curriculum adoptions, resulting in lower spending.
- 3.14 Over Budget – Expenditures exceeded initial projections; additional funds were allocated to meet ELOP requirements.
- 3.15 Over Budget – Additional staff and services were provided, increasing overall costs.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The LEA used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal Three helped make progress towards the LEA’s goal to provide equity and access for all students in all subgroups, utilizing academic rigor through best-first instruction and systematic intervention to ensure that all students graduate college and career-ready.

Action(s): Action 1: Reading Intervention Teachers, Action 2: Intervention Staff, Action 3: Intervention Curriculum, Action 5: Instructional Aides, Action 19: Academic Coaches

Effectiveness of Action(s): Effective

Metric(s): ELA & Math CAASPP Assessments and Access to Grade Level Standards

Analysis Statement: Based on the CAASPP ELA and Math data, Actions 3, 1, 3.5, and 3.19 show partial effectiveness, with stronger evidence of progress in math than in ELA. In math, WUSD increased overall from 17.72% to 20.09% met or exceeded standard, and several focus student groups also improved from baseline, including Low-Income students, African American students, Homeless students, LTEL students, Low-Income Hispanic students, and Low-Income African American students. This suggests that the instructional aides and academic coaching supports may be contributing to improved math outcomes, particularly for some of the district’s identified student groups. In ELA, the results are more mixed. Overall, WUSD performance increased slightly from baseline, from 31.12% to 31.44%, and some student groups showed growth, including Low-Income students, LTEL students, Low-Income Hispanic students, and Low-Income African American students. West Fresno Elementary also showed notable ELA growth overall, increasing from 17.57% to 22.42%, with increases for Low-Income and Hispanic students. However, English Learners declined in ELA districtwide, and some groups, including African American students, Homeless students, and English Learners at WFES, did not show the desired growth. These results indicate that while the reading intervention teachers and instructional aides may be supporting some student progress, they have not yet been strong or consistent enough to improve outcomes for all targeted groups, especially English Learners.

Overall, the data support continuing Actions 3.5 and 3.19, but with closer monitoring and refinement. Instructional aides and academic coaches will continue to focus on small-group instruction, vocabulary development, reading comprehension, and scaffolding for grade-level texts, with particular attention to PLC support that targets English Learners, Long-Term English Learners, Low-Income students, and low performing student groups at West Fresno Elementary, West Fresno Middle School, and Washington Union High School. Because these actions were mostly effective, we will continue these actions into the 2026-27 LCAP.

Action(s): Action 4: Learning Directors & Action 13: Counselors

Effectiveness of Action(s): Effective

Metric(s): CAASPP ELA/Math scores, Suspension Rate, Chronic Absenteeism Rate, A-G Eligibility, Graduation Rate

Analysis Statement: Washington Unified made progress in our 2025 California Dashboard. CAASPP scores in ELA improved for all students and low income students. Our English Learners decreased 2.23% from the baseline year. CAASPP scores in math improved for our English Learners and low income students groups from our baseline year, leading to a similar gain for all students. Furthermore, our chronic absenteeism rate significantly improved for English Learners and Low Income students from our baseline year. While our rate for Foster Youth was not reported due to the number of students in the subgroup. While the actions were designed to target these identified student groups for chronic absenteeism, we also made progress for African American students. Our A-G rate was 34.4% for the 2025 Ca. Dashboard which decreased 4.6% from our baseline year. WUSD graduation rate decreased by .01% for all students from the baseline year. However, our graduation rate increased for low-income and EL student populations. We decreased the suspension rate for Foster Youth and low income student groups from our baseline year. We believe our progress made is due in part to our Learning Directors and our counseling staff. These staff members routinely meet and analyze student data and consistently apply the learning throughout our systems to support students. Our counseling staff is readily available for academic, social, or emotional counseling sessions to ensure our identified student groups are supported. Furthermore, student assemblies are held throughout the district to ensure our identified student groups understand the data and the expectations. Because these actions were mostly effective, we will continue these actions into the 2026-27 LCAP.

Action(s): Action 6: Library Media Services, Action 7: Supplemental Online Academic Support Programs, Action 8: WUHS PASS Program, Action 14: Summer School, Action 15: After School Program, Action 18: Supplemental Instructional Materials and Supplies

Effectiveness of Action(s): Effective

Metric(s): CAASPP ELA/Math scores, A-G Eligibility, College & Career Indicator, Graduation Rate, Suspension Rate

Analysis Statement: Washington Unified made progress in our 2025 California Dashboard. CAASPP scores in ELA improved for all students and low income students. Our English Learners decreased 2.23% from the baseline year. CAASPP scores in math improved for our English Learners and low income students groups from our baseline year, leading to a similar gain for all students. Furthermore, our chronic absenteeism rate significantly improved for English Learners and Low Income students from our baseline year. While our rate for Foster Youth was not reported due to the number of students in the subgroup. While the actions were designed to target these identified student groups, we also made progress for African American student group. Our A-G rate was 34.4% for the 2025 Ca. Dashboard which decreased 4.6% from the baseline year and low income students declined 4.4%. WUSD graduation rate decreased by .01% for all students from the baseline year. However, our graduation rate increased for EL and low-income student populations. We decreased the suspension rate for Foster Youth and low income student groups from our baseline year. In the area of College & Career Readiness: English Learners students improved in CTE Completion and A-G Eligibility. However, our low-income students decreased 4.7% in CTE completion rate which indicates more work in this area. We believe our progress is due in part to our services and programs throughout the district. Specifically, our Library and Media Services provides opportunities for our targeted student groups to get support services for reading and activities to enrich their learning. Supplemental Online support programs and supplemental instructional materials and supplies provides the identified student groups with the resources required to have full access to 21st Century learning. Washington Unified offers a robust after school program which offers myriad opportunities for students to access support for their current courses and also offers a enrichment programs and courses for students to take. In addition to our after school program, we offer our Panther Academic Support System (PASS) at Washington Union High School to help support students with the rigorous course materials. The course offers tutoring opportunities, study tips, and focused time on task to

support our identified student groups. Summer school is offered throughout the district to support and extend the learning of our identified student groups. Because these actions were mostly effective, we will continue these actions into the 2026-27 LCAP.

Action(s): Action 9: English Learner Curriculum and Language Acquisition, Action 11: EL Staff

Effectiveness of Action(s): Effective

Metric(s): CAASPP ELA/Math scores, ELPI Rate, Reclassification Rate

Analysis Statement: Washington Unified made progress in our 2025 California Dashboard. CAASPP scores in ELA improved for all students and low income students. Our English Learners decreased 2.23% from the baseline year but our LTELs increased .58% from the baseline year. CAASPP scores in math improved for our English Learners and low income students groups from our baseline year, leading to a similar gain for all students. In the area of English Language development we decreased our ELPI Rate by 8.4% and our reclassification rate decreased from our baseline year. However, we decreased the overall number of EL students. We believe our progress is due in part to our EL staff and the English Learner curriculum. We started an English Learner Improvement Team in 2022-23 with support from Fresno County Superintendent of Schools and lead by our English Learner Program Coordinator. In addition to our program review, we continue to implement curriculum and develop a comprehensive professional learning plan. Because these actions were mostly effective, we will continue these actions into the 2026-27 LCAP.

Action(s): Action 16: Full Access to Courses and Electives, Action 17: CTE Courses and Electives, Action 20: Class Size Reduction (Grades 4-12)

Effectiveness of Action(s): Effective

Metric(s): CAASPP ELA/Math scores, A-G Rate, CTE Completion Rate

Analysis Statement: Washington Unified made progress in our 2025 California Dashboard. CAASPP scores in ELA improved for all students and low income students. Our English Learners decreased 2.23% from the baseline year. CAASPP scores in math improved for our English Learners and low income students groups from our baseline year, leading to a similar gain for all students. Our A-G rate was 34.4% for the 2025 Ca. Dashboard which decreased 4.6% from the baseline year. CTE completion rate has decreased for our low income students but has increased 1% for our EL students from our baseline year. We believe our progress is due in part to our students having full access to courses, electives, our CTE programs, and class size reduction. Our identified student groups have full access to courses and electives throughout the district. Each of our sites have academic counselors that ensure students have access. In addition, Washington Union High School has eleven pathways and eight that are CTE. All incoming ninth grade students pick which pathway they will be in throughout their high school tenure. However, we are currently looking into the data to understand why the CTE indicator decreased for all students and some of our identified subgroups. Lastly, we strongly believe in class size reduction to ensure differentiated instruction and best practices can be implemented throughout our district. Because these actions were mainly effective, we will continue these actions into the 2026-27 LCAP.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Clarified that aides in action 3.5 will serve grades K-2. Additionally, LREBG funds will be utilized to pay for the entirety of action 3.5.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

## Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Reading Intervention Teachers	The district will provide full-time Intervention teachers at district Elementary schools to serve Low Income students, who are struggling to meet or exceed grade level academic standards as measured by the California Assessment for Student Performance and Progress (CAASPP).	\$608,222.00	Yes
3.2	Intervention Staff	The district will provide intervention staff for students.	\$664,726.00	No
3.3	Intervention Curriculum	Intervention curriculum including books, manipulatives, audio and visual material, and other materials.	\$139,932.00	Yes
3.4	Learning Directors	The District will provide learning directors for the academic, social, and behavioral support for Low Income students and instructional support for teachers, data disaggregation, and program evaluation which will focus on the specific needs of the Low Income students.	\$930,435.00	Yes
3.5	Instructional Aides	The district will provide Instructional Aides for grades K-2.  LREBG Action The LEA will support students with instructional aides to provide small group and individualized academic support in the classroom with a focus on English Learners and Long-Term English Learners. Research shows that providing small-group reading instruction in five core reading elements (phonological awareness, phonics, reading fluency, vocabulary, and comprehension) can significantly increase academic outcomes for English language learners in the elementary grades. The metric being used to monitor the action is CAASPP ELA and math. \$679,984.00 of LREBG Funds will support this action in the 2026-27 school year.	\$1,166,328.00	Yes

Action #	Title	Description	Total Funds	Contributing
<b>3.6</b>	Library Media Services	The district will provide Library Media Services personnel to support our Low Income students.	\$372,146.00	Yes
<b>3.7</b>	Supplemental Online Academic Support Programs	The district will provide supplemental online academic support programs and software for Low Income students.	\$122,694.00	Yes
<b>3.8</b>	WUHS PASS Program	The district will provide PASS for the academic, social, and behavioral support for Low Income students as well as, instructional support for teachers, data disaggregation, and program evaluation.	\$2,525.00	Yes
<b>3.9</b>	English Learner Curriculum and Language Acquisition	The district will provide a supplemental curriculum to support language acquisition English Learner and LTEL students.	\$7,552.00	Yes
<b>3.10</b>	This action intentionally left blank	This action intentionally left blank by district financial services.	\$0.00	
<b>3.11</b>	EL Staff	The district will provide English Learner Teachers and Instructional Aides for English Learner students.	\$387,044.00	Yes
<b>3.12</b>	This action intentionally left blank	This action intentionally left blank by district financial services.	\$0.00	
<b>3.13</b>	Counselors	The district will ensure counseling services are available for students.	\$1,493,222.00	Yes
<b>3.14</b>	Summer School	The district will provide summer school courses that include enrichment, credit recovery, and opportunities to meet A-G requirements.	\$1,156,668.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.15	After School Program	The After School Program will ensure that students receive academic support, including tutoring and assistance completing homework .	\$3,293,964.00	No
3.16	Full Access to Courses and Electives	The district will offer full access to courses and electives for our Low Income students.	\$2,116,598.00	Yes
3.17	CTE Courses and Electives	The district will provide for expanded CTE Pathways as this support is designed to meet the specific academic needs unique for our Low Income student population, and is expected to result in increased learning.	\$2,162,384.00	Yes
3.18	Supplemental Instructional Materials and Supplies	The district will provide supplemental instructional supplies for Low Income students.	\$262,241.00	Yes
3.19	Academic Coaches	<p>The district will employ Academic Coaches to provide ongoing professional learning and support for teachers to increase teacher efficacy.</p> <p>This action will address the following areas of lowest performance on the CA School Dashboard 2023:  CAASSP ELA:  WUSD: AA, EL, and Homeless  WFES: All, EL, HS, and SED  WFMS: All</p> <p>CAASSP Math:  WUSD: AA, EL, HS, Homeless, and SED  WUHS: HS</p>	\$678,744.00	Yes
3.20	Class Size Reduction (Grades 4-12)	The district will utilize certificated teaching staff to maintain class size at the lowest levels possible at all schools for grades 4-12 for low income students.	\$1,444,998.00	Yes

Action #	Title	Description	Total Funds	Contributing

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
4	The Washington Unified School District will be a place where all students in all subgroups are actively engaged in a safe and positive school climate reflecting the diversity of our district as our strength.	Broad Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 5: Pupil Engagement (Engagement)</p> <p>Priority 6: School Climate (Engagement)</p>
---

An explanation of why the LEA has developed this goal.

Based on state and local assessment data, educational partner consultation, and other collected data the district identifies this Goal and subsequent Actions as priorities for the district. Goal 4 focuses on improving performance across the wide range of metrics listed below. Currently, 100% of students do not attend school on a daily basis. Students need to be actively engaged in school daily in order to become college and career-ready graduates. The number of students suspended and/or expelled needs to continue to decline in order to provide all students a safe and positive school climate conducive to learning. The actions and metrics included below will help achieve the goal.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	Attendance Rate	All: 95.3%  Data Year: 2023-24 Data Source: Aeries (SIS) End of Year	All: 92.33%  Data Year: 2024-25 Data Source: PowerSchool (SIS) End of Year	All: 93.56% Fall Semester 2025  Data Year: 2025-26 Data Source: PowerSchool (SIS)	WUSD will maintain the district attendance rate at or above 95%.	WUSD All: Declined 1.44%

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The LEA used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Four supported progress toward meeting the goal of being a place where all students in all subgroups are actively engaged in a safe and positive school climate that reflects the diversity of our district as our strength.

### Action 1 - District Coordination of Student Support Services

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has established processes and procedures in the area of student services. In addition, initial steps to implement BSU at WFMS have been taken. District Student Support Services which includes our school to home liaisons analyze data weekly. In addition, our Director of Student Services ensures data is analyzed on a routine basis with all site principal's to ensure best practices are in place. WUSD attendance goal of 95% was not met at the semester. Attendance update will happen with final adoption of the LCAP.

Due to an increase in student support services, there was a difference in planned action compared to the actual implementation.

### Action 2 - TIP/SARB Program

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has had a TIP/SARB system in place for several years. Data is routinely reviewed with an attendance team and results disseminated throughout the district. WUSD attendance goal of 95% was not met at the semester.

Fewer meetings occurred throughout the school year and therefore resulted in a difference in planned action compared to the actual implementation.

### Action 3 - School to Home Liaisons

Implementation Status: 5 - Full Implementation and Sustainability. WUSD home liaisons are an essential part of the attendance team and the monitoring of effectiveness. WUSD attendance goal of 95% was not met at the semester.

No substantive difference in planned action compared to the actual implementation.

### Action 4 - Campus Engagement Activities

Implementation Status: 5 - Full Implementation and Sustainability. Washington Unified will continue to provide school site activities like providing stipends for staff to engage with students, extra transportation routes, and a myriad of extracurricular activities to engage our Low Income, EL, and Foster Youth student population. These activities will continue to provide our students with additional opportunities to be a part of an engaged campus.

No substantive difference in planned action compared to the actual implementation.

#### Action 5 - Social Work Services

Implementation Status: 5 - Full Implementation and Sustainability. WUSD is providing social work services throughout the district. We have hired three full time social workers.

No substantive difference in planned action compared to the actual implementation.

#### Action 6 - Counseling and Mental Health Services

Implementation Status: 5 - Full Implementation and Sustainability. WUSD has a robust counseling and mental health program throughout the district. WUSD also partners with several organizations to offer additional services.

No substantive difference in planned action compared to the actual implementation.

#### Action 7 - Student Transition Programs

Implementation Status: 5 - Full Implementation and Sustainability. WUSD continues to offer student transition programs throughout the district. Transition programs assist students with feeling connected to a new campus. Specifically, we provided Link Crew, Where Everybody Belongs (WEB) and student mediators to ensure our students are part of an engaged campus.

No substantive difference in planned action compared to the actual implementation.

#### Action 8 - Additional Safety

Implementation Status: 5 - Full Implementation and Sustainability. WUSD ensures student safety is a high priority. Campus safety personnel provide a variety of services to ensure student safety and connectedness is thriving. Campus safety personnel supported student connection and communication with parents of ELs, Foster Youth, and low-income students by providing additional caring adults on campus who can build meaningful relationships with students. They worked with administration and staff to provide community-oriented communications with the identified parents, students, and staff.

No substantive difference in planned action compared to the actual implementation.

#### Action 9 - Health Services

Implementation Status: 5 - Full Implementation and Sustainability. WUSD ensures our health services are robust and serve students needs. Health services are very important to the success of our students. Students being in class and provided with best first instruction is essential to student success.

WUSD increased staffing and therefore there was a difference in planned action compared to the actual implementation. The health services provided were supplemental.

Overall Successes: Because we were able to implement all planned actions, WUSD has many successes in regards to goal #4. Chronic Absenteeism has dropped for all students and our subgroups identified. Our suspension rate increased .01% which is a slight increase but

the majority of our subgroups data did decrease in this area. In addition, we maintained zero expulsions throughout the district. Lastly, WUSD improved our graduation rate for low-income and EL students, decreased our dropout rate from the previous year, and maintained zero expulsions. Implementation of goal #4 was complete and thorough.

Overall Challenges: WUSD still has challenges to overcome. One of the challenges is our attendance rate. We have not met our goal of 95% since our baseline year. In addition, our chronic absenteeism did come down but is still higher than we would like. We did not experience significant challenges when implementing our actions.

#### An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following actions contain a material difference between budgeted and actual expenditures:

4.1 Over Budget – Increase in student support services.

4.2 Under Budget – Fewer meetings occurred throughout the school year, resulting in decreased spending.

4.5 Over Budget – The District increased staffing.

4.6 Under Budget – Other funding sources were used for this action, reducing the need for planned expenditures.

4.7 Under Budget – Other funding sources were used for this action, reducing the need for planned expenditures.

4.9 Over Budget – The District increased staffing.

#### A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The LEA used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 – Effective.

The actions outlined in Goal Four helped make progress towards the LEA's goal of being a place where all students in all subgroups are actively engaged in a safe and positive school climate, reflecting the diversity of our district as our strength.

Action(s): Action 1: District Coordination of Student Support Services, Action 2: TIP/SARB Program, Action 3: School to Home Liaisons  
Effectiveness of Action(s):

Metric(s): Attendance Rate, Chronic Absenteeism Rate, CAASPP ELA/Math scores, Suspension Rate

Analysis Statement: Washington Unified made progress in our 2025 California Dashboard. CAASPP scores in ELA improved for all students and low income students from our baseline year. Our English Learners decreased 2.23% from the baseline year. CAASPP scores in math improved for our English Learners and low income students groups from our baseline year, leading to a similar gain for all students.

Furthermore, our chronic absenteeism rate improved slightly for English Learners and low-income students. Foster Youth was not reported on the Ca. Dashboard. Specifically, we had a 1% decrease in chronic absenteeism for all students, .3% decrease for low income students, .3% decrease for English Learners from the prior year, and FY students could not be compared due to the 2023, 2024 and 2025 dashboard not reporting statistics due to privacy concerns. While the actions were designed to target these identified student groups, we also made progress for African American students and the all student group. In the area of suspension, district wide, all students and subgroups identified decreased from the baseline year. Specifically at West Fresno Elementary, our African American students decreased 5.6% and

WFES homeless student group decreased 2.5% from the baseline year. At West Fresno Middle School, our Hispanic student group decreased 10%, SED decreased 11.9%, and SWD decreased 7% from our baseline year. However, our low income Hispanic and low income SWD suspension rates did increase from the baseline year. At American Union, our white student suspension rate decreased by 2% but our low income white student did increase by 5.2%. We believe our progress was made due to the District Coordinator routinely analyzing data with the attendance team that includes our School to Home Liaisons, and in collaboration with our families. Additionally, our District Coordinator utilizes the TIP/SARB Program data to track and promote good attendance throughout the district. We believe these programs are resulting in the gains for our identified student groups and therefore will continue these actions into the 2026-27 LCAP.

Action(s): Action 4: Campus Engagement Activities & Action 7: Student Transition Programs

Effectiveness of Action(s): Effective

Metric(s): CAASPP ELA/Math scores, Attendance, School Connectedness, Chronic Absenteeism

Analysis Statement: Washington Unified made progress in our 2025 California Dashboard. CAASPP scores in ELA improved for all students and low income students from our baseline year. Our English Learners decreased 2.23% from the baseline year. CAASPP scores in math improved for our English Learners and low income students groups from our baseline year, leading to a similar gain for all students.

Furthermore, our chronic absenteeism rate slightly improved for English Learners and low-income students. Foster Youth was not reported on the Ca. Dashboard. WUSD has not met our attendance goal but it is within 2%. All sites throughout the district plan and execute several campus engagement activities. For example, we utilize Link Crew and Where Everybody Belongs (WEB) activities to ensure our students that are transitioning schools will feel safe and supported before the school year officially starts. An average of 80% of students in grades 3-12 felt safe at school. By tracking parent visits to campus, 4,387 parents visited our sites for one event or another during the 2025-26 school year. We feel our student transition programs are effective at creating connectedness as 78.5% of students in grade 3-12 feel connected to school. Transition programs are highly attended by our students. We believe these programs are resulting in the gains for our identified student groups and therefore will continue these actions into the 2026-27 LCAP.

Action(s): Action 5: Social Work Services, Action 6: Counseling and Mental Health Services, Action 8: Additional Safety, Action 9: Health Services

Effectiveness of Action(s): Effective

Metric(s): CAASPP ELA/Math scores, Chronic Absenteeism, Attendance, Sense of Safety for Students

Analysis Statement: Washington Unified made progress in our 2025 California Dashboard. CAASPP scores in ELA improved for all students and low income students from our baseline year. Our English Learners decreased 2.23% from the baseline year. CAASPP scores in math improved for our English Learners and low income students groups from our baseline year, leading to a similar gain for all students.

Furthermore, our chronic absenteeism rate slightly improved for English Learners and low-income students. Foster Youth was not reported on the Ca. Dashboard. Educational partners appreciate the measures we have taken to keep our sites safe and in a good learning environment. This is affirmed by all three grade level spans survey data. We believe these programs are resulting in the gains for our identified student groups and therefore will continue these actions into the 2026-27 LCAP.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Added Easton High to metric 4.3. The action description for Action 4.4 was clarified to include stipends for staff and transportation to assist with student engagement.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
4.1	District Coordination of Student Support Services	<p>The district will provide robust Student Support Services, including administrative coordination through the following:                      Director of Student Support Services                      Home to School Liaison</p> <p>This action will address the following areas of lowest performance on the 2023 CA School Dashboard:                      Suspension Rates:                      WUSD: AA, FY, and Homeless                      AU: White                      WFES: AA, Homeless                      WFMS: All Students, Hispanic, SED, SWD</p>	\$392,347.00	Yes
4.2	TIP/SARB Program	The district will continue to provide the TIP/SARB Program.	\$9,393.00	Yes
4.3	School to Home Liaisons	The district will continue to provide school liaisons to conduct home visits and coordinate district efforts to improve attendance.	\$222,987.00	Yes
4.4	Campus Engagement Activities	Washington Unified will continue to provide school site activities like providing stipends for staff to engage with students, extra transportation routes, and a myriad of extracurricular activities to engage our Low Income student population.	\$506,385.00	Yes

Action #	Title	Description	Total Funds	Contributing
<b>4.5</b>	Social Work Services	Social work services are provided. A variety of social work services are provided including, identifying, assessing, and counseling students and families with attendance problems, developing referral plans, providing intervention as needed; and participating in the development of programs aimed at improving attendance. Social work services also include crisis intervention to parents and students in regards to suicide threats, drug abuse, pregnancy, truancy, medical problems, community violence, child abuse and other issues.	\$434,167.00	No
<b>4.6</b>	Counseling and Mental Health Services	The district will provide counseling and mental health services for Low Income students.	\$143,479.00	Yes
<b>4.7</b>	Student Transition Programs	The district will continue to provide student transition programs.	\$58,935.00	Yes
<b>4.8</b>	Additional Safety	The district will continue to provide school safety and security staff and additional staffing to address safety needs.	\$603,742.00	Yes
<b>4.9</b>	Health Services	The District will continue to provide appropriate and timely health care services, staff, and supplies beyond what is statutorily required.	\$743,964.00	Yes

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
5	Improve Early Literacy Rates for Groups identified for DA. WUSD believes that all students, especially our African American (AA) students and those experiencing homelessness need to be able to leave our district college and career ready. This begins at the earliest stages of academic development, and therefore establishing a solid early literacy foundation is essential for students to fully engage and be present in learning throughout our TK-12 system. Through a focus on developing early literacy skills, the district expects to see a steady incline of literacy rates.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)

An explanation of why the LEA has developed this goal.

WUSD is eligible for Differentiated Assistance for Students with Disabilities (SWD) and homeless students. 3rd grade local and state assessments demonstrate that not all students are reading at or above grade level which points to the important opportunity to ensure these students experience improved literacy rates. Early literacy rates are expected to improve as measured by the metrics below. After conducting a root cause analysis, WUSD created Goal #5, which places a specific focus on ensuring that the identified students leave our district college and career ready, by improving early literacy rates for these student groups and which we believe will also improve the literacy rates for all students. The actions and metrics included below will help achieve the goal.

## Measuring and Reporting Results

## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The LEA used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full

Implementation; 5 – Full Implementation and Sustainability.

The action outlined in Goal Five supported progress toward meeting the goal of improving Early Literacy Rates for Groups identified for DA.

Action 1 - Early Literacy Cycles

Implementation Status: Full Implementation. WUSD in our TK through 2nd grade implemented ten early literacy cycles focused upon instructional strategies identified within a toolkit of which teachers selected two strategies to master and implement throughout the school year. These strategies were modeled in front of peers and administration in one cycle to receive immediate feedback for next steps for instructional implementation. Cycles include: professional training around foundational literacy skill strategies within the toolkit, one-on-one coaching for New Teachers to Early Literacy grade levels, implementation of DIBELS reading screener as a common assessment, Unified Grade Level PLCs that inform small group instruction, targeted remediation, administrator literacy walks, and Reading Corps tutoring. Additionally, a district Early Literacy Team has been formed to lead the work and meets monthly to plan for facilitating Unified Grade Level PLC's and Unified TK-2 convenings centered around cycles of support and improvement. We expect that through a district-wide focus on providing high-quality early educational experiences, that the achievement gap will decrease.

No substantive difference in planned action compared to the actual implementation.

Overall Successes: Focused strategies were identified in 100% of classroom settings during each cycle of implementation.

Overall Challenges: Small group instruction and differentiation of instruction has presented a challenge for some teachers in diagnosing particular areas of need due to data literacy needs in accessing reports and targeted areas for focus with implementation of new reading screener (DIBELS).

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

N/A

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The LEA used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal Five helped the LEA make progress towards its goal of improving Early Literacy Rates for Groups identified for DA.

Action(s): Action 1: Early Literacy Cycles

Effectiveness of Action(s): Effective

Metric(s): SBAC ELA assessment, BPST assessment, Foundational Skills Assessment, DIBELS, iReady

Analysis Statement: Based on the data through our assessment and early literacy cycles this action was effective. For example, \_\_\_\_\_ student achievement increased by % in the May administrative annual assessment. We believe the identified student groups are making progress and will carry this action forward with the noted changes below.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of feedback received from grade level teachers, Professional Learning Communities Late Start Wednesdays will increase to (5) calendared district unified grade level meetings in grades TK-2 continuing in 2025-2026. This came as a result of intentional planning time needed to support ongoing implementation of toolkit routines. These opportunities will grant grade levels to review specific assessment results pertinent to their grade levels to collaborate for potential solutions, and next steps for instructional implications in analyzing the data. There was an identified need in analysis of the data points to include training around accessing platforms to routinely design small group instruction as a result of the analysis and comfortability of the platforms. Baseline data and time of collection were adjusted to reflect End of Year. We believe this more accurately reflects the effectiveness of the action. TK-2nd grade unified Early Literacy PLCs will be placed on pause to support implementation of literacy focused around math instruction as it pertains to our district math adoption.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
5.1	Early Literacy Cycles	The district has designed a comprehensive approach to meeting the foundational literacy needs of our students by creating Early Literacy Cycles using an improvement science approach. Cycles include: professional training around phonics, phonemic awareness, and fluency, regular one-on-one coaching, common assessments, PLCs that inform small group instruction, targeted remediation, administrator literacy walks, and Reading Corps tutoring. Additionally, a district Early Literacy Team has been formed to lead the work and meets monthly.	\$0.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
6	By 2027, Easton High will decrease its Suspension rate by 3% for all students, as well as low income students. Easton High will also improve its attendance rate by 3%. Finally, Easton High will maintain its 100% Graduation Rate	Equity Multiplier Focus Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning) Priority 5: Pupil Engagement (Engagement) Priority 6: School Climate (Engagement)
--

An explanation of why the LEA has developed this goal.

Based on state and local assessment data, educational partner consultation, and other collected data the site identifies this Goal and subsequent Actions as priorities for the site. Goal 6 focuses on improving school engagement in an effort to decrease suspension and improve attendance and graduation rates for all students, including our low income students. A needs assessment revealed that currently, 100% of students do not attend school on a daily basis. We believe students need to be actively engaged in school daily in order to become successful. The actions below have been designed to increase engagement through high-interest activities and incentives and to promote attendance. Our needs assessment also showed that the number of students suspended and/or expelled needs to continue to decline in order to provide all students a safe and positive school climate conducive to learning. We believe this will contribute to positive graduation rates. Our educational partners felt that providing more individualized supports through an intervention specialist would help the identified students meet attendance and graduation goals. The actions and metrics included below will help achieve the goal.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
6.1	Attendance Rate	All Students: 83.66% LI: Data cannot be disaggregated  Data Year: 2022-23 Data Source: Local Data	All: 88.75% LI: Data cannot be disaggregated  Data Year: 2023-24 Data Source: Local Data	All: 87.87% LI: Data cannot be disaggregated  Data Year: 2024-25 Data Source: Local Data	Easton High attendance rate will increase by 1% for all students and low-income students.	All: Increased 4.21%

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
6.2	Graduation Rate	All Students: 100% LI: 100%  Data Year: 2022-23 Data Source: CA Dashboard	All: 71.4% LI: 72.7%  Data Year: 2023-24 Data Source: CA Dashboard	All: 100% LI: Not enough students in the subgroup to report  Data Year: 2023-24 Data Source: CA Dashboard	Easton High graduation rate will increase by 1% for all students and low-income students. ## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The LEA used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Six supported progress toward meeting the goal of increasing the Attendance Rate and Graduation Rate, while decreasing the Suspension Rate

### Action 1 - Staffing

Implementation Status: 4 - Full Implementation. WUSD added a full time Counselor and Intervention Specialist to the Alternative Education Staff. The Counselor was able to start making connections with students and assisting with college and career plans as well as general counseling while the Intervention Specialist assisted students with goal setting and time management. Implementation status changed from Initial to Full Implementation.

### Action 2- Tutoring Services

Implementation Status: 2 - Beginning Development. Easton Continuation did not yet implement on campus. WUSD has selected the tutoring services to be used and will implement in 25-26 School Year.

#### Action 3- School Culture, Field Trips Guest Speakers and Connectedness Activities

Implementation Status: 4 - Full Implementation. Student opportunities included increased field trips, activities including sporting events and college and career exploration. Variety of Guests Speakers spoke to students in regards to life choices and affects. Implementation status changed from Initial to Full Implementation.

#### Action 4- Equipment

Implementation Status: 4 - Full Implementation. Athletic equipment was purchased and contributed to Easton High students being better equipped to participate in athletic events and activities with other schools. Other funding was used to support this action. There was no difference in the planned vs implemented action.

Challenges- A continued challenge at an Alternative Education School and specifically a Continuation School like Easton High, is that the enrolled student population can vary greatly from year to year, semester to semester, and even week to week. Students referred to Easton High from the district's traditional High School often have a history of personal challenges in the area's of Behavior, Attendance and Academic success.

Successes- Students were appreciative of the activity opportunities and field trips. The positive reception led to increased activities and events this current school year which in turn lowered discipline incidents.

### An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following Actions contain a material difference between budgeted and actual expenditures:

6.1 Over budget - Provided additional staff and services

6.3 Under budget - Other funding sources were used for this action, reducing the need for planned expenditures.

6.4 Under budget - Other funding sources were used for this action, reducing the need for planned expenditures.

### A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The LEA used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal Six helped make progress towards the LEA's goal to increase daily Attendance. However the Suspension Rate increased for all students including Low Income students and the school's graduation rate decreased for all students including the Low Income subgroup.

Action(s): Action 1: Staffing, Action 2: Academic Tutoring, Action 3: School Culture, Action 4: Equipment

Effectiveness of Action(s): 3- Effective

Metric(s): Daily Attendance Rate, Suspension Rate and Grad Rate

Analysis Statement: Easton High School made progress in the area of improving Attendance. The overall Attendance Rate including Low Income Students improved by just over X% during the 2025-2026 School Year. We believe our progress was made due to having a Spanish Speaking Counselor and Secretary and introducing more activities on and off campus in addition to a field trip opportunities. Continued utilization the Counselor allowed for better communication and support for all students and families as well as those that speak Spanish. These communications helped relay important school information including absences, academic progress and behavior to the families at home. In turn parents/guardians were better equipped to support their students attending school at a higher rate. Creating sporting event opportunities as well as a field trips to local colleges and businesses also helped encourage students to attend school. Although the Suspension Rate increased slightly, the Graduation Rate increased to 100%, including among Low-Income students. Easton High serves students referred due to being significantly behind in graduation progress or having serious disciplinary histories. As a result, year-to-year variations in Suspension and Graduation Rates are expected based on the unique needs of the student population. Despite these challenges, Easton High continues to implement the strategies outlined in the LCAP to create a safe, supportive, and academically focused environment that helps all students get back on track. WUSD will continue these actions into the 2025-26 LCAP and increase the event frequency. Action 2, was not implemented in the 2025-26 school year. However, academic tutoring was identified as a need and may be implemented in the 2026-27 school year.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action descriptions for 6.1, 6.2, 6.3, 6.4 were updated with language tailored specifically to Easton High School. There are no changes to the goals.

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
6.1	Staffing	By utilizing a school counselor, Easton High students will receive more one on one attention to their needs of completing class work, personal skills like scheduling and balancing school/personal loads, education in the area of importance of an diploma, career opportunities, extended/expanded education, etc. The Intervention Specialist will create a credit time management with students and will collaborate on the individualized schedule with each students, their teacher, and counselor. This will assist students with knowing how much time they have to work on each class/credit assigned to them on their Independent Study Master Agreement Contract each semester. This will help reach the goal of increased Graduation Rate.	\$95,694.00	No

Action #	Title	Description	Total Funds	Contributing
6.2	Academic Tutoring	Tutoring and academic support will ensure that students receive the necessary assistance to succeed in their academic endeavors. Students who have access to tutoring and support services will be more likely to complete their assigned classwork and credits. These services will also be used as an intervention for students who are struggling, helping them understand difficult concepts and stay on track with their coursework. By providing these resources, we aim to improve overall academic performance, which in turn will lead to an increased Graduation Rate and positively impact attendance as students will feel more supported and motivated to attend school regularly.	\$12,000.00	No
6.3	School Culture, Field Trips Guest Speakers and Connectedness Activities	<p>Providing more opportunities for students to engage in high-interest experiences that will promote school attendance and participation. Easton High School will seek out and attend more field trip opportunities for all students. Field trips have increased attendance in the past when provided. Field trips will be used as motivators for students to have positive and increased attendance. This will help meet the goal of increased attendance rate for all students. Field trips will also be used as rewards for positive behavior. This can lead to a decrease in suspensions and discipline incidents creating an increased positive atmosphere on campus. Positive behavior also helps meet the attendance goal as students are more inclined to attend a school where they feel safe. Field trips will also help maintain Graduation Rate by being relevant to exposing students to possible careers and further schooling.</p> <p>The district will invest in motivational resources including guest speakers to work with Easton High students towards graduation. By bringing in guests speakers, students will receive positive messages that will motivate students to earn their diploma. Easton High graduation rate will maintain level if/when students are motivated to earn and receive their diploma. Attendance rate will be positively effected by guest speakers as well as students will be motivated to attend on special days when outside guests are on campus. Negative behavior usually does not occur on special days so discipline will be positively effected as well. In addition to guests</p>	\$370.00	No

Action #	Title	Description	Total Funds	Contributing
		speakers, motivational programs will be explored as well. Themed days/weeks and outside programs like animal conservation will be used as rewards for students to experience. These days will help boost attendance and motivate students to have positive behavior.		
6.4	Equipment	New equipment for activities like art supplies, sports balls, etc . will be purchased for Easton High. Students who enjoy playing sports and participating in activities will attend school more if/when they have proper supplies. These supplies will also be used as rewards for students to use when they exhibit positive behavior. New PE equipment can be used to introduce students to more physical activities they may be interested in. This in turn will lead to increased participation in PE which will help Graduation Rate and have a positive effect on attendance when students want to come to school to use new equipment.	\$1,000.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
7	By 2027, ELM High will increase its overall Graduation Rate by 3%- 1% each year, for all students, as well as Hispanic and Socio-economically disadvantaged students. ELM High will also increase its CCI rate by 3%- 1% each year, for all students, as well as Hispanic and Socio-economically disadvantaged students.	Equity Multiplier Focus Goal

**State Priorities addressed by this goal.**

Priority 2: State Standards (Conditions of Learning) Priority 4: Pupil Achievement (Pupil Outcomes) Priority 7: Course Access (Conditions of Learning)
--

**An explanation of why the LEA has developed this goal.**

Based on state and local assessment data, educational partner consultation, and other collected data the site identifies this Goal and subsequent Actions as priorities for the site. Goal 7 focuses on improving the graduation rate and the college and career indicator for all students, including our low income students. A needs assessment revealed that the ELM High graduation rate has historically been lower than the state average. Since moving away from the One Year Grad Rate 2 years ago, the ELM High Grad rate has been in in the 60% band. While there was a small increase in 2023, the percentage is still on the lower end and the goal is make higher gains in this area. According to the 2024 CA School Dashboard, All students, Hispanic Students, and Low Income students earned the lower performance level for both graduation rate and CCI. We believe students need to be supported and actively engaged in school in order to be successful. The actions below have been designed to increase the support for our students and increase the sense of school connectedness to increase the graduation rate and the college and career indicator. The actions and metrics included below will help achieve the goal.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
7.1	Graduation Rate	All Students: 64.2% Hispanic: 61.4% SED: 64.2%  Data Year: 22-23 2023 Dashboard	All Students: 60% Hispanic: 66.7% SED: 59.2%  Data Year: 2023-24	All Students: 66.7% Hispanic: 66.7% SED: 59.2%  Data Year: 2024-25	Elm High graduation rate will increase for identified subgroups by 3%. ## Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

The LEA used the following rating scale to determine its progress in implementing the actions to achieve the articulated goal. Ratings were based on an analysis of inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability.

The actions outlined in Goal Seven supported progress toward meeting the goal of increasing the Graduation Rate and CCI Rate

### Action 1 - Staffing

Implementation Status: 4 - Full Implementation. WUSD continued utilizing a full time Counselor and Intervention Specialist to the Alternative Education Staff. The Counselor was able to start making connections with students and assisting with college and career plans as well as general counseling while the Intervention Specialist assisted students with goal setting and time management. Implementation status changed from Initial to Full Implementation.

### Action 2- Tutoring Services

Implementation Status: 3 - Initial Implementation. ELM has implemented tutor services. There was no difference in the planned vs implemented action.

Action 3- School Culture, Field Trips Guest Speakers and Connectedness Activities

Implementation Status: 4- Full Implementation. Student opportunities included increased field trips and college and career exploration. Implementation status changed from Initial to Full Implementation.

Challenges- A challenge at an Alternative Education School and specifically an Independent Study Program like ELM High, is that the enrolled student population can vary greatly from year to year, semester to semester, and even week to week. Students referred to ELM High from the district's traditional High School often have a history of personal challenges in the area's of Behavior, Attendance and Academic success. A success for ELM High is the actions below lead to the increase of Grad Rate and CCI Rate for Hispanic students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following Actions contain a material difference between budgeted and actual expenditures:

7.1 Over budget - Provided additional staff and services

7.2 Under budget - Other funding sources were used for this action, reducing the need for planned expenditures.

7.3 Under budget - Other funding sources were used for this action, reducing the need for planned expenditures.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

The LEA used the following rating scale to determine the effectiveness of the actions to achieve the articulated goal. Ratings were based on an analysis of both inputs from educational partners and metrics.

Rating Scale (lowest to highest): 1 – Not Effective; 2 – Somewhat Effective; 3 –Effective.

The actions outlined in Goal Seven helped basically maintain the Grad Rate and CCI Rate.

Action(s): Action 1: Staffing, Action 2: Tutoring Services, Action 3: School Culture, Field Trips, Guest Speakers, and Connectedness Activities

Effectiveness of Action(s): 3- Effective

Metric(s): Graduation Rate and CCI Rate

Analysis Statement: ELM High increased the sites Grad Rate in 2025-2026 from the prior year. Overall the rate increased 6.7% for all students and rose 6.3 % for SED. Our Counselor efforts include reaching families to relay student progress while also offering personal support. Tutoring and field trip opportunities contributed to the Grad Rate and CCI Rate being maintained. Because these actions were mostly effective maintaining outcomes, we will continue these actions into the 2026-27 LCAP and increase the contact frequency with additional staff. Local Data shows similar improvements in the 25-26 School Year. We will continue the actions to increase CCI and Grad Rate for SED students. We believe the increases can be attributed to adding the Full Time Counselor and Intervention Specialist Intervention to focus on real time intervention and student assistance in areas like goal setting and time management. This allows our Counselor to spend more time on College and Career counseling with the students as well as plan and schedule College and Career exploration opportunities.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Action descriptions for 7.1, 7.2, 7.3 were updated with language tailored specifically to the ELM high Program. The word prepared was added to metric 7.2 to increase clarity for educational partners. No changes have been made to the goal

**A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.**

## Actions

Action #	Title	Description	Total Funds	Contributing
7.1	Staffing	This action will address the following areas of lowest performance on the 2023 CA School Dashboard: Grad Rate and CCI Rate for all students, Hispanic students, and SED students. By utilizing a counselor, Independent Study students will receive more one on one attention to their needs of completing class work, personal skills like scheduling and balancing school/personal loads, education in the area of importance of an diploma, career opportunities, extended/expanded education, etc. The Intervention Specialist will create a time management schedule and will collaborate on the individualized schedule with each students, their teacher, and counselor. This will assist students with knowing how much time they have to work on each class/credit assigned to them on their Independent Study Master Agreement Contract each semester. This will help reach the goal of increased CCI Rate and Graduation Rate.	\$133,289.00	No
7.2	Academic Tutoring	Tutoring and academic support will ensure that all students receive the necessary assistance to succeed in their academic endeavors, including help with completing class/credit assignments as outlined in their Independent Study Master Agreement Contract each semester. Students who have access to tutoring and support services will be more likely to complete their assigned classwork and credits. These services will help students understand difficult concepts and stay on track with their coursework. By providing these resources, we aim to improve overall academic performance, which in turn will lead to an increased Graduation Rate and positively impact attendance as students will feel more supported and motivated to attend school regularly.	\$10,000.00	No

Action #	Title	Description	Total Funds	Contributing
7.3	School Culture, Field Trips Guest Speakers and Connectedness Activities	Providing more opportunities for students to engage in high-interest experiences that will promote school attendance and participation. ELM High School will seek out and attend more field trip opportunities for all students. Field trips have increased attendance in the past when provided. Field trips will be used as motivators for students to have positive and increased attendance. Field trips will also help maintain Graduation Rate by being relevant to exposing students to possible careers and further schooling.	\$317.00	No

## Required Descriptions

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.2	<p><b>Action:</b> Beginning Teacher Induction</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments.</p>	<p>To address the need, the district will continue to provide induction for all beginning teachers, including training on best instructional practices, differentiation, scaffolding, and implementing culturally relevant practices.</p> <p>Through induction support, beginning teachers will be required to demonstrate these instructional practices. We believe that these instructional practices provide greater educational access and</p>	<p>SBAC ELA: AS, LI SBAC Math: AS, LI Highly Qualified Teachers</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>A local needs assessment indicated that first best instruction provided by well trained teachers is needed to improve academic achievement for the identified students.</p> <p><b>Scope:</b> LEA-wide</p>	<p>are key to meeting the unique needs of identified student groups. Training on best instructional practices equips teachers with the skills and knowledge necessary to engage students effectively in the learning process. Differentiation and scaffolding techniques are particularly important for addressing the diverse needs and learning levels present in classrooms, including those of low-income students who may require additional support.</p> <p>The additional services provided are designed to meet the specific academic needs unique to the Low Income students and are expected to result in increased learning. Because we expect that all students may benefit from instructional skills obtained through beginning teacher induction this action will support all students throughout the district.</p>	
1.4	<p><b>Action:</b> Technology</p> <p><b>Need:</b> As demonstrated in the associated metrics sections our Low Income students have the most opportunity for continued academic growth according to the most current state assessments.</p> <p>A local needs assessment highlighted the need for Low Income students to have an increase in access to technology to augment and support learning to meet proficiency on ELA &amp; Math state assessments. In our experience, Low-income students do not</p>	<p>The district will continue to purchase technology such as computer hardware and learning programs.</p> <p>By providing technology, students will have increased access to high-quality resources, learning and enrichment opportunities 24 hours a day which will support extended learning or learning recovery opportunities. The additional services such as computer hardware, including learning programs and supports provided are specifically designed to meet the specific academic needs unique to the Low Income student population, and are expected to result in increased learning.</p>	SBAC ELA: AS, LI SBAC Math: AS, LI

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>always have the resources to access technology at home.</p> <p>Parents expressed their desire for technology for their students.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Because we expect that all students may benefit from accessing technology this action is available to all students throughout the district.</p>	
<p><b>1.5</b></p>	<p><b>Action:</b> Professional Development</p> <p><b>Need:</b> As demonstrated in the associated metrics sections our Low Income, English Learners, and LTEL students have the most opportunity for continued academic growth according to the most current state and local assessments. While data shows that we decreased our ELPI Rate by 8.4% and our reclassification rate decreased by 8.9% from the baseline year. Therefore, we would like to continue this action and continue to narrow our focus on the remaining EL students in our district.</p> <p>Research indicates that when properly implemented, best first instruction from well-trained staff results in students having greater access to improving missing skills and more opportunities to reach standards. This is confirmed by our classroom observations. Data from the SBAC ELA and Math revealed that our low income students have gaps that impact their opportunities to reach standards for grade level proficiency and/or college preparedness.</p>	<p>The district will continue to provide professional development focusing on best first instruction.</p> <p>In our experience, as educators hone their instructional skills, staff will be better able to fill gaps that currently exist. The LEA will continue to support this by providing professional development, including professional development related to instructional techniques for LTELs and English Learners, Professional Learning Community (PLC), Early Literacy Cycles and professional learning for all staff. In our experience educators hone their instructional skills and apply the most current strategies, the identified students will be brought up to grade-level proficiency. Teachers who continuously improve their instructional skills are better able to provide targeted support to students who are lagging behind academically. By assessing students' individual needs and employing appropriate strategies, educators can address specific areas of difficulty and provide interventions tailored to the needs of low-income, EL, and LTEL students. The professional development provided is designed to meet the specific academic access needs unique to the identified student population, and are expected to result in increased learning.</p>	<p>SBAC ELA: AS, LTELs, ELs, &amp; LI SBAC Math: AS, LTELs, ELs, &amp; LI ELPI Reclassification Rates</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Educational Partners expressed a desire to support English Learners and LTELs, specifically our increasing Newcomer student population.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Because we expect that all students may benefit from staff professional development, this action is available to all students throughout the district. Investing in the continuous development of the staff will support the academic development of our students.</p>	
<p><b>1.6</b></p>	<p><b>Action:</b> PLC Facilitators</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments.</p> <p>In our experience, PLC Facilitators are essential because they facilitate the data cycles within which we monitor the academic progress of Low-Income students. Through these cycles, teachers are able to identify gaps quickly and implement appropriate high-impact strategies, incorporating interventions as requested by our educational partners.</p> <p><b>Scope:</b> LEA-wide</p>	<p>The District will provide PLC Facilitator stipends for disaggregation of data, progress monitoring on state standard implementation, in order to increase student achievement.</p> <p>The skilled facilitation of data analysis is designed to help teachers become more aware of individual student needs and to collaborate around that data. In our experience, this analysis leads to improved instructional strategies and increase student achievement. at by supporting how PLCs and data cycles are facilitated at sites, teachers will be able to have more meaningful collaboration around data and instructional practice, thus better addressing the unique needs of LI students within the classroom. Though these cycles, teachers are able to identify gaps quickly and implement appropriate high impact strategies.</p> <p>The additional services provided are designed to meet the specific academic needs unique to Low Income students, and are expected to result in increased learning. Because we expect that all students may benefit from PLC Facilitators work this action is available to all students throughout the district.</p>	<p>SBAC ELA: AS &amp; LI SBAC Math: AS &amp; LI</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p><b>1.7</b></p>	<p><b>Action:</b> Classroom Technology Support</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments.</p> <p>Educational partner feedback indicated that both device and software malfunctions led to increased frustration for students and staff.</p> <p><b>Scope:</b> LEA-wide</p>	<p>The District will provide ongoing technical support to ensure staff and students have access to fully functioning technology and support for learning.</p> <p>Research shows that classroom technology support is needed to ensure consistent access to well-functioning technology for learning. Support staff will be available for low income students and families to solve technology related issues and repair malfunctioning equipment at no cost. Support will be available during the school day. These technology support services provided are designed to meet the specific academic needs unique to the Low Income student population, and are expected to eliminate barriers to increased learning for low income students.</p> <p>The action is designed to support low-income students but because we expect that all students may benefit from ongoing technical support, this action is available to all students throughout the district.</p>	<p>SBAC ELA: AS &amp; LI SBAC Math: AS &amp; LI</p>
<p><b>2.1</b></p>	<p><b>Action:</b> Parent Engagement, Support Services, and Supplies</p> <p><b>Need:</b> As demonstrated in the associated metrics section we have reached Full Implementation and Sustainability when it comes to seeking parent input &amp; promoting parental participation in programs for Low Income, EL, and Foster Youth students and students with exceptional needs. Also, our rates of parent and student connectedness remain high, something we want to maintain.</p>	<p>The District will facilitate parent engagement, support services, and supplies in order to engage parents. The district has provided a Media Communications Specialist to increase and facilitate parent, student, and community engagement.</p> <p>The district will promote parent participation in meetings and events by providing childcare, additional translation, light refreshments, and materials needed to participate in order to eliminate these common barriers to engagement.</p>	<p>Seek parent input &amp; promote parental participation in programs for Low Income, EL, and Foster Youth students and students with exceptional needs</p> <p>Maintain strong parent communication</p> <p>Rate of School connectedness for parents and students</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Additionally, the annual needs assessment data for Low Income students is analyzed and educational partners continue to rate parent engagement as a high priority for student academic success.</p> <p>In our parent engagement meetings that were held, there was a discussion about how there is a need for more parent engagement to occur. A local needs assessment showed a need to increase parent engagement as a way to improve the academic achievement of the identified students.</p> <p><b>Scope:</b> LEA-wide</p>	<p>The additional services provided, including services by the Media Communications Specialist, are designed to meet the specific academic access unique to the EL, FY. and Low Income student population by routinely interviewing student programs and producing culturally relevant communication designed to engage parents. The media communications specialist will reach out to our students to gauge topics of interest and ensure that their voices are represented in district communications.</p> <p>While the action is designed to meet the needs of low income, EL, and foster youth students, we expect that all students may benefit from parents being engaged, this action is available to all students throughout the district.</p>	
2.2	<p><b>Action:</b> PowerSchool Communication/Parent Square</p> <p><b>Need:</b> As demonstrated in the associated metrics sections and Identified Needs section, our Low Income, Foster Youth, and EL students have the most opportunity for continued academic growth according to state and local assessments.</p> <p>Additionally, the annual Needs assessment data for Low Income, EL, and Foster Youth students are analyzed annually and educational partners continue to rate school-to-home communication as a high priority for student success.</p>	<p>The action is designed to provide multiple methods of communication for parents and guardians of the identified students to ensure they are aware of school activities and their students' academic progress. In our experience, if parents feel well informed, they are better able to support their students' learning process and participation in school activities will be increased.</p> <p>The additional services provided are designed to meet the specific academic needs unique to the EL, Foster Youth, and Low Income student population, and are expected to result in increased learning.</p> <p>Because we expect that all students may benefit from additional parent communication, this action is available to all students throughout the district.</p>	<p>Maintain strong parent communication.</p> <p>WUSD Math CAASPP: EL, LI, &amp; FY WUSD ELA CAASPP: EL, LI, &amp; FY</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>In our experience continuing to strengthen regular communication from the school about important events, student progress, and opportunities for participation and input is necessary to build guardian awareness, create community, and ensure greater voice and partnership between the district and parents of the identified student groups.</p> <p><b>Scope:</b> LEA-wide</p>	<p>The intended outcome is for our Low Income, EL, and Foster Youth students to improve their academic growth as measured by state and local assessments.</p>	
<p><b>2.3</b></p>	<p><b>Action:</b> Parent Education Classes</p> <p><b>Need:</b> Educational Partners have told us that they appreciate our parent education classes and would like them to continue. Additionally, our rates school connectedness for parents remain strong. We desire to continue this trend as parents have told us that parent education is a priority.</p> <p>Additionally, the annual needs assessment data for Low Income students is analyzed and educational partners continue to rate increased parent education opportunities as a high priority for student success that will lead to increased academic achievement on state and local assessments for Low Income students.</p> <p><b>Scope:</b></p>	<p>The district will provide parent education, including language acquisition courses for parents which will empower them to support student learning by feeling confident to participate in school policy and decision-making, understand how to support the demands of school, and being able to access necessary language skills in order to fully contribute to their student's academic activities.</p> <p>These classes are designed to empower parents to support student learning by building their confidence to participate in school policy and decision-making, helping them understand how to support the demands of school, and equipping them with the necessary language skills to fully contribute to their student's academic success.</p> <p>The additional services provided are designed to meet the specific academic needs unique to the Low Income student population, and are expected to result in increased learning.</p> <p>Because we expect that all students may benefit from additional parent education classes, this</p>	<p>Provide Parent English acquisition classes, for all parents</p> <p>Rate of school connectedness for parents</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	action is available to all students throughout the district.	
3.1	<p><b>Action:</b> Reading Intervention Teachers</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments.</p> <p>A local needs assessment indicated that Low Income students struggle to read on grade level. Educational partners have expressed their desire for continued intervention.</p> <p><b>Scope:</b> Schoolwide</p>	<p>The district will provide full-time Intervention teachers at district Elementary schools to serve Low Income students who are struggling to meet or exceed grade level academic standards as measured by the California Assessment for Student Performance and Progress (CAASPP).</p> <p>Through additional, targeted academic and reading support provided by dedicated teachers, identified students will gain necessary skills and content practice to deepen learning. Intervention teachers will provide additional, targeted academic and reading support provided to the identified students during the school day. Supports will include differentiated learning activities that address the varying learning styles and abilities of the targeted students, explicit vocabulary instruction for both math and phonics, and a focus on comprehension strategies designed to increase competency. The additional services provided are designed to meet the specific academic needs unique to the Low Income student population, and are expected to result in increased learning.</p> <p>Because we expect that all students may benefit from additional reading intervention teachers, this action is available to all students throughout the district at our elementary sites.</p>	<p>SBAC ELA: All Students &amp; Low Income students SBAC Math: All Students &amp;, Low Income students</p>
3.3	<p><b>Action:</b> Intervention Curriculum</p> <p><b>Need:</b></p>	<p>The district will provide intervention curriculum at district Elementary schools to serve Low Income students who are struggling to read and therefore aren't yet meeting or exceeding grade level academic standards as measured by the California</p>	<p>SBAC ELA: All Students &amp; Low Income students SBAC Math: All Students &amp;, Low Income students</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments.</p> <p>A local needs assessment indicated that Low Income students struggle to read on grade level. In our experience, these students do not always have access to supplemental intervention materials at home.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Assessment for Student Performance and Progress (CAASPP).</p> <p>Intervention curriculum, including learning materials that offer a variety of access points through manipulatives, videos, audio options, extended reading, are designed to strengthen skills, knowledge and application at our students individual reading level. Supplemental intervention supplies will ensure that Low Income students have the resources and supports needed to make progress toward grade level standards. Intervention curriculum and supplemental materials will be chosen by our intervention teachers according to our students individual needs. The additional materials/supplies provided are designed to meet the specific academic needs unique to the Low Income student population, and are expected to result in increased learning.</p> <p>Because we expect that all students may benefit from additional intervention curriculum, this action is available to all students throughout the district at our elementary sites.</p>	
3.4	<p><b>Action:</b> Learning Directors</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments. Low income suspension rate is also higher than our all student group. Chronic absenteeism rates showed low income student absences were slightly higher than all</p>	<p>The District will provide learning directors for the academic, social, and behavioral support for Low Income students and instructional support for teachers, data disaggregation, and program evaluation which will focus on the specific needs of the Low Income students.</p> <p>Learning directors will provide academic, social, and behavioral support for Low Income students and instructional support for teachers, data disaggregation, and program evaluation. Learning Directors will connect the identified students with</p>	<p>Chronic Absenteeism: AS, LI Suspension: AS, LI SBAC ELA: All Students &amp; Low Income students SBAC Math: All Students &amp;, Low Income students</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>students, evidencing a need to continue these supports.</p> <p>A local needs assessment identified that Learning Directors are essential for the academic, social, and behavioral support of Low Income students and instructional support for teachers that is needed to improve academic achievement for the Low Income students as shown in the metrics. In addition, Learning Directors are having a positive influence on our chronic absenteeism rate.</p> <p><b>Scope:</b> LEA-wide</p>	<p>academic interventions and mental health supports.</p> <p>Learning Directors are essential for leading and coordinating professional learning communities and other professional development activities. They focus on ensuring the implementation of standards and academic support services tailored to the needs of low-income students. Through weekly analysis of academic and behavioral data, Learning Directors will identify and address the needs of low-income students who are struggling and connect them to the appropriate tiered academic and social-emotional supports. By promoting restorative justice practices, Learning Directors aim to reduce campus suspensions and minimize lost instructional time. They continuously monitor progress and collaborate with teachers, parents, and intervention providers to ensure the identified students receive targeted assistance.</p> <p>The additional services provided are designed to meet the specific academic needs unique to the Low Income student population such as academic review of lessons and guidance on study skills and are expected to result in increased learning.</p> <p>Because we expect that all students may benefit from additional Learning Directors, this action is available to all students throughout the district.</p>	
3.5	<p><b>Action:</b> Instructional Aides</p> <p><b>Need:</b> As demonstrated in the associated metrics sections, our Low Income, English Learners,</p>	<p>The district will provide Instructional Aides to be able to support Low Income students, English Learners, and Long-Term English Learners.</p> <p>Additional academic support that monitors learning levels, gaps in academic skills, and learning</p>	SBAC ELA: All Students & Low Income students, English Learners, and Long-Term English Learners

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>and Long-Term English Learners students have the most opportunity for continued academic growth according to the most current state and local assessments.</p> <p>A local needs assessment indicated that our Low Income students, English Learners, and Long-Term English Learners would benefit from small group and individualized support by instructional aides. Educational partners have requested that we continue intervention efforts.</p> <p><b>Scope:</b> LEA-wide</p>	<p>strengths is important to augment academic learning and spark curiosity. Instructional Aides support and monitor the academic achievement and learning progress of the identified students through collaborations with classroom teachers in order to provide just-in-time support. Research shows that providing small-group reading instruction in five core reading elements (phonological awareness, phonics, reading fluency, vocabulary, and comprehension) can really help English language learners in the elementary grades. Instructional aides can support the classroom teacher to ensure the strategies are implemented with fidelity. Through additional proactive and intentional monitoring and support, students' needs can be identified early and often allowing the system to be more responsive so that purposeful learning supports may be extended.</p> <p>The additional services provided are designed to meet the specific academic needs unique to the Low Income, English Learners, and Long-Term English Learners student populations and are expected to result in increased learning. Because we expect that all students may benefit from additional Instructional Aides, this action is available to all students throughout the district.</p>	<p>SBAC Math: All Students &amp;, Low Income students, English Learners, and Long-Term English Learners Educational Partner Feedback</p>
<p><b>3.6</b></p>	<p><b>Action:</b> Library Media Services</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments.</p>	<p>The district will provide Library media services personnel to support our Low Income students.</p> <p>In our experience, library media services help support the academic achievement, reading comprehension, and learning progress of Low-Income students by providing exposure to a variety of texts as well as language-rich environments which may not always be available</p>	<p>SBAC ELA: All Students &amp; Low Income students SBAC Math: All Students &amp;, Low Income students</p>

	<p>remediation outside of the regular school year for a variety of courses.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Because we expect that all students may benefit from additional summer school, this action is available to all students throughout the district.</p>	
<p><b>3.16</b></p>	<p><b>Action:</b> Full Access to Courses and Electives</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments including A-G rates and CTE completion rate.</p> <p>A local needs assessment indicated that Low-Income students often lack access to opportunities such as music education, due to the costs associated such as transportation or materials to participate. Educational partners have told us that they enjoy the enrichment that electives provide their students.</p> <p><b>Scope:</b> LEA-wide</p>	<p>In order to address these needs, the district will offer full access to courses and electives for low-income students.</p> <p>Fully staffed electives are designed to benefit low-income students by providing them with opportunities to explore diverse interests and develop skills that they might not have access to outside of school. This exposure can be crucial for personal development and future career opportunities, helping to level the playing field by offering experiences that can inspire and prepare them for a wider range of educational and professional paths.</p> <p>The additional services provided are designed to meet the needs of Low-Income students and are expected to result in increased learning. Because we expect that all students may benefit from this action it will be provided to all students throughout the district.</p>	<p>SBAC ELA: All Students &amp; Low Income students SBAC Math: All Students &amp;, Low Income students A-G rates: AS, LI CTE Completion: AS, LI</p>
<p><b>3.17</b></p>	<p><b>Action:</b> CTE Courses and Electives</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments including the completion rates</p>	<p>The district will provide for expanded CTE Pathways as this support is designed to meet the specific academic needs for Low Income students population, and is expected to result in increased learning.</p> <p>CTE courses provide access to real-world applications related to future career opportunities.</p>	<p>SBAC ELA: All Students &amp; Low Income students SBAC Math: All Students &amp;, Low Income students A-G rates: AS, LI CTE Completion: AS, LI</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>for A-G and CTE. Expanding CTE Pathways, including staffing, will help expand the various ways students may meet A-G requirements and preparation for post-secondary success.</p> <p>A local needs assessment indicates our educational partners want us to continue to offer opportunities for our Low Income student population to access CTE courses and electives.</p> <p><b>Scope:</b> LEA-wide</p>	<p>These courses also integrate academics, making learning more engaging and relevant for students. In our experience, high interest courses provide increased motivation and opportunities to practice skills useful in other academic subjects such as math, science, and language arts. As students engage in experiential and practical learning, they will practice critical thinking, explore areas of post-secondary interest and develop marketable skills and knowledge.</p> <p>This action is designed to meet the needs of Low Income students, however, because we expect that all students may benefit from this action it will be provided to all students throughout the district.</p>	
<p><b>3.18</b></p>	<p><b>Action:</b> Supplemental Instructional Materials and Supplies</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments.</p> <p>A local needs assessment indicated our Low-Income students lack access to supplemental instructional materials and supplies.</p> <p><b>Scope:</b> LEA-wide</p>	<p>The district will provide supplemental instructional supplies for Low Income students.</p> <p>As students interact with additional learning materials that offer a variety of access points through manipulatives, videos, audio options, extended reading, they will strengthen skills, knowledge and application. Supplemental instructional supplies will ensure that Low Income students have the resources and supports needed to complete all courses. We provide essential school supplies to low-income students who otherwise could not afford them, aiming to improve their academic outcomes.</p> <p>Because we expect that all students may benefit from additional supplemental instructional material, this action is available to all students throughout the district.</p>	<p>SBAC ELA: All Students &amp; Low Income students SBAC Math: All Students &amp;, Low Income students</p>
<p><b>3.19</b></p>	<p><b>Action:</b> Academic Coaches</p>	<p>In order to address these needs, the district will employ Academic Coaches to provide ongoing</p>	<p>SBAC ELA: (AS, LI, EL, Homeless, AA, LI AA)</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p><b>Need:</b> CAASSP ELA and Math data show that our low-income, English learner, and Homeless students are performing below the all student group in both ELA and Math with the exception of our Homeless students in ELA; we were able to close the gap with our homeless students in ELA. However, a continued effort will remain in place to ensure the trend. A needs assessment revealed that one of the common root causes of low performance among English learners, Homeless, and low-income students is gaps in foundational literacy skills, specifically in reading comprehension and writing. While these affect English-language assessment scores, we found that they also negatively impact Math scores due to the increasing amount of academic language needed to comprehend math instruction and demonstrate mastery. Educational partner feedback indicates that teachers, especially those new to the field, often struggle to tailor grade-level content instruction to meet the needs of students with significant skills and concept gaps.</p> <p>As part of the needs assessment, WUSD disaggregated ELA and Math CAASPP data further and found that our low-income African American students performed significantly lower than the overall low-income group, and our low-income Hispanic students were also struggling to make gains. As part of the 2023 needs assessment, 90% of African American students were also low-income and 72.4% of our Hispanic students are low-income. We</p>	<p>training and support for teachers and other instructional staff.</p> <p>Academic coaches will provide professional learning and support for teachers during the school day which focuses on lesson design and delivery that integrates literacy development into content-area learning. Strategies may include explicit vocabulary instruction, breaking down grade-level texts into smaller, more manageable parts, and providing scaffolding to support students as they read. Coaches will also help train new teachers to use best practices, such as demonstrating how to monitor comprehension, make predictions, and ask questions while reading both English and Math texts.</p> <p>The Curriculum, Instruction, and Assessment team at WUSD will prioritize the improvement of the identified students at West Fresno Elementary School, West Fresno Middle School, and Washington Union High School. Academic coaches will be assigned to support each site's administrators and PLC's to specifically collect and analyze the data for the identified groups, ensuring a focus on increasing reading comprehension by customizing grade-appropriate content to address the learning gaps of students with significant skill and knowledge deficiencies.</p> <p>This action provides the coaching needed to increase academic achievement for Low-income, English Learners, and Homeless students, including low-income African American and low-income Hispanic students. However, because we expect that all students, including African</p>	<p>WFES: (AS, EL, Hispanic, SED, LI Hispanic) WFMS: (AS, LI)</p> <p>SBAC Math: (AS, LI, EL, Homeless, AA, Hispanic, LI AA, LI Hispanic) WUHS: (Hispanic, LI Hispanic)</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>continued to dig deeper and found that the trend existed at some of our school sites, specifically for students at WFES and WFMS, where low-income students make up a significant portion of the population, as well as for low-income Hispanic students at WUHS, and Low-income African American and Low-Income Hispanic students at WFES. In each case, we found that these student groups needed additional supports in either ELA or Math due to gaps in essential literacy skills, particularly in reading and writing comprehension. iReady data for these groups has helped us to identify reading comprehension as a critical issue affecting student progress in both English and Math. Educational Partners agree that boosting reading comprehension is a top priority.</p> <p><b>Scope:</b> LEA-wide</p>	<p>American and Hispanic students, will benefit, this action will be provided on an LEAwide basis.</p>	
<p><b>3.20</b></p>	<p><b>Action:</b> Class Size Reduction (Grades 4-12)</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments.</p> <p>A local needs assessment indicated that our Low-Income student groups benefit from the personalized support provided by teachers. Lower class sizes help ensure that teachers can provide this needed attention.</p>	<p>The district will utilize certificated teaching staff to maintain low class sizes at all schools for grades 4-12 for Low Income students.</p> <p>Lower teacher to student ratios increases the amount of time teachers can spend with students and therefore supports the educator’s ability to provide more one-on-one instructional time with students to target individual needs, allows for a calmer learning environment which lowers affect and helps students feel safe. As students receive more targeted instruction and have increased time with the teacher, skill and concept gaps may be addressed fostering deeper levels of learning.</p>	<p>SBAC ELA: All Students &amp; Low Income students SBAC Math: All Students &amp;, Low Income students</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p><b>Scope:</b> LEA-wide</p>	<p>Furthermore, the teacher and student will have more time to develop necessary rapport that supports a healthy learning environment. The additional services provided are designed to meet the specific academic needs unique to the Low Income student population, and are expected to result in increased learning.</p> <p>Because we expect that all students may benefit from additional class size reduction, this action is available to all students throughout the district.</p>	
<p><b>4.1</b></p>	<p><b>Action:</b> District Coordination of Student Support Services</p> <p><b>Need:</b> Based on our analysis of the 2023 California School Dashboard, our Low Income, Foster Youth, and Homeless students showed higher rates of Absenteeism and Suspension than our all-student group. The district performed a needs assessment which included a root cause analysis and determined that these students often experience barriers to school attendance such as access to healthcare and reliable transportation. The root cause analysis also found that these students often experienced Adverse Childhood Experiences such as exposure to violence, lack of food or shelter and chronic stress from emotional or physical instability.</p> <p>As part of the needs assessment, WUSD disaggregated our suspension data, analyzed it by sub-group, and found that our low-income African American students also had higher</p>	<p>In order to address these needs, the district will provide robust Student Support Services that include the following:</p> <p>A Director of Student Support Services to coordinate a districtwide effort to monitor and analyze absenteeism and suspension rates for the identified students. The Director will facilitate regular administrator meetings where site principals will gather to analyze data and craft targeted supports for students. The Director will also review all processes and procedures on a routine basis to coordinate district efforts to improve attendance. Moreover, they will actively engage with external educational and community partners to form strategic partnerships, thereby facilitating the seamless provision of specialized supports and resources to identified students, including procuring mental health counseling support at all sites.</p> <p>A School-to-home liaison will be provided to support the identified students and their families. The liaison will actively communicate with the families of the identified students through phone</p>	<p>Chronic Absenteeism: AS, LI, FY</p> <p>Suspension Rates: WUSD: AS, AA, LI AA, FY, and Homeless</p> <p>AU: White, LI White</p> <p>WFES: AA, LI AA, and Homeless</p> <p>WFMS: AS, LI, Hispanic, SED, SWD</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>rates of suspension than all students. In WUSD approximately 90% of African American students are also low-income. We continued to dig further and found that suspension rates were higher for specific subgroups at our school sites. Specifically, Low-income white students at American Union, Low-income African American and Homeless students at West Fresno Elementary, and All students, Low-income Hispanic students, and Low-Income Students with disabilities at West Fresno Middle all earned the lowest performance level (red) for suspension on the California School Dashboard. In each case, we determined that these groups of students were at higher risk for being exposed to ACEs and that the students and their families lacked access to local services such as healthcare and/or mental health counseling. Additionally, educational partners expressed that African American students lack connectedness to school.</p> <p>Data from the 2025 California School Dashboard indicates the majority of the identified students groups have shown improvement. Our needs assessment indicates that we need to continue the supports.</p> <p>Our educational partners continue to tell us that connections to local resources and mental health support are necessary for Our educational partners continue to tell us that connections to local resources and mental</p>	<p>calls, emails, and home visits designed to identify the root causes of attendance and suspension issues. The liaison will act as an advocate for the students and their families to ensure students have access and are connected to resources such as healthcare and mental health counseling.</p> <p>In an effort to reduce African American suspension rate, Washington Unified will expand Black Student Union (BSU) into our middle school at West Fresno Middle School. Utilizing our BSU staff and students, we will expand our program. In our experience, BSU has a positive impact on school attendance because it provides a supportive community. Improving school connectedness by providing strong relationships between middle and high school students is designed to foster a sense of belonging and respect, which can reduce behavioral issues and the likelihood of suspension.</p> <p>At American Union, West Fresno Elementary, and West Fresno Middle School, we will ensure that our principals look at the identified student data along with the school-to-home liaison monthly and will track data and provide appropriate information to teachers to ensure that teachers are equipped to support the students experiencing ACEs. Each site principal, along with the Director and Liaison will meet on a regular basis to review attendance and suspension data, set goals, and monitor student progress.</p> <p>The additional services provided are designed to meet the needs of Low-Income, Foster Youth, and Homeless students, including low-income African American, Low income Hispanic, low-income</p>

		that all students may benefit from the TIP/SARB Program, this action is available to all students throughout the district.	
4.3	<p><b>Action:</b> School to Home Liaisons</p> <p><b>Need:</b> As demonstrated in the associated metrics sections, our Low Income made improvement in the 2025 California Dashboard chronic absenteeism. We believe this indicates effectiveness and will we continue to provide low income students the supports outlined in the action. A local needs assessment indicated that our Low Income students will benefit from the support our school liaisons provide including a personal connection between school and home through at home contacts and communication with parents.</p> <p><b>Scope:</b> LEA-wide</p>	<p>The district will continue to provide School Liaisons to conduct home visits and coordinate district efforts to improve attendance.</p> <p>A School-to-home liaison will be provided to support the identified students and their families. The liaison will actively communicate with the families of the identified students through phone calls, emails, and home visits designed to identify the root causes of attendance and suspension issues. The liaison will act as an advocate for the students and their families to ensure students have access and are connected to resources such as healthcare and mental health counseling.</p> <p>Because we expect that all students may benefit from school to home liaisons, this action is available to all students throughout the district.</p>	<p>Chronic Absenteeism: AS, LI</p> <p>District Attendance Rate</p>
4.4	<p><b>Action:</b> Campus Engagement Activities</p> <p><b>Need:</b> As demonstrated in the associated metrics sections, our Low Income students made improvement in the 2025 California Dashboard chronic absenteeism. We believe this indicates effectiveness and will we continue to provide low income students the supports outlined in the action. According to a local needs assessment, our Low-Income students'</p>	<p>The district will continue to provide campus engagement activities.</p> <p>Washington Unified will continue to provide school site activities like providing stipends for staff to engage with students, extra transportation routes, and a myriad of extracurricular activities to engage our Low Income student population. Campus Clubs and Organizations: Encouraging participation in extracurricular activities such as clubs, sports teams, and student organizations can provide low-income students with opportunities to</p>	<p>Chronic Absenteeism: AS, LI</p> <p>Rates of school connectedness for students</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>sense of connectivity, belonging, and community has benefits that support well-being and, ultimately, the conditions for learning. Educational partners have also told us that low-income students lack access to reliable transportation.</p> <p><b>Scope:</b> LEA-wide</p>	<p>build relationships, develop skills, and feel a sense of belonging within the school community. These fully staffed activities offer a supportive environment where low income students can explore their interests, connect with peers who share similar passions, and develop leadership abilities. These activities will continue to provide our students with additional opportunities to be a part of an engaged campus. Transportation is provided to ensure low income students can participate.</p> <p>The additional services provided are designed to meet the specific academic needs unique to the Low Income student population such as engagement/connectivity to school, and are expected to result in reduced rates of chronic absenteeism and higher school connectedness. Because we expect that all students may benefit from campus engagement activities, this action is available to all students throughout the district.</p>	
<p><b>4.6</b></p>	<p><b>Action:</b> Counseling and Mental Health Services</p> <p><b>Need:</b> As demonstrated in the associated metrics, our low-income students are performing slightly below our all-student group on state assessments.</p> <p>A local needs assessment indicated our Low-Income students academic achievement is often impacted by mental health factors. Our educational partners have told us that they would benefit from counseling and mental health services.</p>	<p>To address these needs, the district will provide Counseling and mental health services for Low Income students in order to help support the social emotional needs of the identified students who are facing difficulties in their lives that are causing them to suffer at school. Counseling and mental health services are available to students district-wide before and after school to allow for more access beyond the school day by All for Youth.</p> <p>Trained and skilled professionals will help students cultivate self-regulation, process trauma and stresses, and develop interpersonal skills that will ultimately lead to greater levels of confidence, independence, and self-awareness.</p>	<p>SBAC ELA: All Students &amp; Low Income students SBAC Math: All Students &amp; Low Income students</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p><b>Scope:</b> LEA-wide</p>	<p>The additional services provided are designed to meet the specific social-emotional and academic needs unique to the Low-Income student population and are expected to result in increased learning. Because we expect that all students may benefit from additional counseling and mental health services, this action is available to all students throughout the district.</p>	
<p><b>4.7</b></p>	<p><b>Action:</b> Student Transition Programs</p> <p><b>Need:</b> As demonstrated in the associated metrics sections, our Low Income made improvement in the 2025 California Dashboard chronic absenteeism and ELA and math CAASPP scores. We believe this indicates effectiveness and will we continue to provide low income students the supports outlined in the action. In our experience a student's sense of connected on campus is a key motivator for attendance.</p> <p>A local needs assessment indicated our Low Income students benefit from student transition programs which provide a supportive community, including resources and guidance that they may not otherwise have access to.</p> <p><b>Scope:</b> LEA-wide</p>	<p>The district will continue to provide student transition programs.</p> <p>Washington Unified will continue to provide transition support programs such as Link Crew, Where Everybody Belongs (WEB), and Student Mediators that provide strategies to welcome our Low Income student population, and make them feel comfortable and safe at school. These programs are designed to provide students more self-confidence through positive peer interactions. Low-income students benefit from transition programs because these programs provide essential support and resources during critical educational transitions, such as moving from elementary school to middle school or from middle school to high school. This support can include mentoring, and guidance on navigating new educational environments, which can help mitigate challenges and barriers these students often face, thereby improving their chances of academic success and long-term achievement</p> <p>The additional services provided are designed to meet the specific academic needs unique to the Low Income student population, and are expected</p>	<p>SBAC ELA: All Students &amp; Low Income students SBAC Math: All Students &amp; Low Income students</p> <p>Chronic Absenteeism: AS, LI</p> <p>District Attendance Rate</p> <p>Rates of school connectedness for students</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>to result in increased learning, attendance rate, and school connectedness.</p> <p>Because we expect that all students may benefit from additional student transition programs, this action is available to all students throughout the district.</p>	
<p><b>4.8</b></p>	<p><b>Action:</b> Additional Safety</p> <p><b>Need:</b> As demonstrated in the associated metrics sections, our Low Income students made improvement in the 2025 California Dashboard chronic absenteeism. We believe this indicates effectiveness and will we continue to provide low income students the supports outlined in the action. According to parent feedback from our Low Income population, providing a safe environment for their children is key to student attendance and engagement. Educational Partners have told us that a student's sense of safety on campus is a key motivator for attendance therefore making it essential that staff are skilled in building positive rapport with students, de-escalation methods, and are a proactive part of cultivating a welcoming environment for students.</p> <p><b>Scope:</b> LEA-wide</p>	<p>The district will continue to provide school safety and security staff and additional staffing to address safety needs.</p> <p>Washington Unified will continue to provide school safety and security staff and staffing to address the safety needs of our Low Income student population. When trained and skilled in positive behavior strategies, trauma informed practices, and relationship building, safety and security personnel will be able to connect with the identified students, foster a calm environment, approach student interactions with a more equitable lens and thereby creating a calmer, inclusive environment where students feel safe and welcomed and desire to attend school.</p> <p>These staff members will support student connection and communication with parents of Low Income students by providing additional caring adults on campus who can build meaningful relationships with their children. They work with administration and staff to provide community-oriented communications with the identified parents, students, and staff.</p> <p>The additional services provided are designed to meet the specific academic needs to the Low Income student population, and are expected to</p>	<p>Chronic Absenteeism: AS, LI Students Sense of Safety</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>result in reduced rates of chronic absenteeism and a higher sense of school safety. Because we expect that all students may benefit from additional safety staff, this action is available to all students throughout the district.</p>	
<p><b>4.9</b></p>	<p><b>Action:</b> Health Services</p> <p><b>Need:</b> As demonstrated in the associated metrics sections, our Low Income made improvement in the 2025 California Dashboard chronic absenteeism. We believe this indicates effectiveness and will we continue to provide low income students the supports outlined in the action. A local needs assessment indicated, our Low Income students continue to need appropriate and timely health care services, staff, and supplies to achieve academic success.</p> <p>In our experience, when students receive timely health care services, they are less likely to be absent/chronically absent from school and more likely to receive instruction.</p> <p><b>Scope:</b> LEA-wide</p>	<p>The District will continue to provide appropriate and timely health care services, staff, and supplies beyond what is statutorily required to Low Income students.</p> <p>This action will secure the well-being of all aspects of school success, starting with maintaining high attendance rates and ensuring Low Income students are healthy enough to fully participate in the education program. In addition to daily healthcare services, health staff will work with students and their families to educate them about healthy practices and local resources to maintain healthy lifestyles. The additional services provided are designed to meet the specific academic needs unique to the Low Income students and are expected to result in reduced rates of chronic absenteeism and higher attendance rates.</p> <p>Because we expect that all students may benefit from health services, this action is available to all students throughout the district.</p>	<p>Chronic Absenteeism: AS, LI</p> <p>District Attendance Rate</p>

## Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
<p><b>3.9</b></p>	<p><b>Action:</b> English Learner Curriculum and Language Acquisition</p> <p><b>Need:</b> As demonstrated in the associated metrics sections, our LTEL and English Learner students have the most opportunity for continued growth toward English Proficiency and EL Reclassification rates.</p> <p>A local need assessment indicated that a supplemental curriculum for LTELs and English Learners is needed to support and monitor the academic achievement, reading comprehension, and learning progress of the LEA's English Learner students. In our experience our supplemental curriculum provides the differentiated support targeting both LTELs and EL students.</p> <p><b>Scope:</b> Limited to Unduplicated Student Group(s)</p>	<p>The district will provide a supplemental curriculum to support language acquisition for LTELs and English Learner students.</p> <p>The additional services provided are designed to meet the specific academic needs unique to the English Learner student population, including LTELs and are expected to result in increased learning. The supplemental curriculum will provide targeted instruction in English language development, focusing on vocabulary acquisition and reading comprehension. It includes interactive activities, multimedia resources, and scaffolded lessons designed to support English learners at different proficiency levels. By immersing students in language-rich environments and providing explicit instruction in English language skills, supplemental curriculum helps English learners and LTELs build the foundation they need to make progress toward their goals.</p>	<p>ELPI: EL, LTELs Reclassification Rate: EL, LTELs SBAC ELA: EL, LTELs</p>

	<p>English Proficiency and EL Reclassification rates.</p> <p>A local needs assessment indicated our EL students will benefit from staff trained to meet their unique needs.</p> <p><b>Scope:</b> Limited to Unduplicated Student Group(s)</p>	<p>LEA's English Learner students through continuous data cycles, which enable them to identify immediate gaps and provide the appropriate strategies such as scaffolding, academic vocabulary instructions, and conversational practice.</p> <p>The additional services provided are designed to meet the specific monitoring and academic needs unique to the English Learner students and are expected to result in increased learning.</p>	

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

NA

### Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

All schools in the district are above 55% enrollment of Low-Income students, English Learners, and Foster Youth, and all schools will receive additional FTE to provide direct services to these students; therefore, no methodology was required to prioritize services to individual schools. The District will use Concentration Grant Add-on funds at schools with 55% or greater enrollment of unduplicated students to hire: 3.5 Instructional Aides, 3.11 EL Certificated Teachers and Instructional Aides, 3.13 Counselors, and 3.20 Class Size Reduction (Grades 4-12) certificated/support teachers.

<b>Staff-to-student ratios by type of school and concentration of unduplicated students</b>	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	NA	NA
Staff-to-student ratio of certificated staff providing direct services to students	NA	NA

# Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [LCFF@cde.ca.gov](mailto:LCFF@cde.ca.gov).*

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
    - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# Plan Summary

## ***Purpose***

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

## **Requirements and Instructions**

### **General Information**

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### **Reflections: Annual Performance**

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
  - If the LEA has unexpended LREBG funds the LEA must provide the following:
    - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
    - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
      - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32627\(c\)\(2\)](#); and
      - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32627\(d\)](#).
        - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
      - Actions may be grouped together for purposes of these explanations.
      - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
  - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

### **Reflections: Technical Assistance**

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

## Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

### Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

### Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

### Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

## Engaging Educational Partners

### *Purpose*

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

## Requirements

### *Requirements*

**School districts and COEs:** [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## ***Instructions***

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

### Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

### Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

## Goals and Actions

### *Purpose*

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### *Requirements and Instructions*

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

**Requirement to Address the LCFF State Priorities**

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

**Focus Goal(s)**

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

### Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

#### Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

#### Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

### Broad Goal

#### Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

#### Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

### **Maintenance of Progress Goal**

#### Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

#### Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

### **Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
  - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> <li>• Enter the metric number.</li> </ul>
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

## Baseline

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
    - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

## Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

## Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

### Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> and <b>2026–27</b> . Leave blank until then.

### Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

## Actions:

Complete the table as follows. Add additional rows as necessary.

### Action #

- Enter the action number.

### Title

- Provide a short title for the action. This title will also appear in the action tables.

### Description

- Provide a brief description of the action.
  - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
  - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

### Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

### Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

## Required Actions

### For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
  - Professional development for teachers.
  - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

### For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

### For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

### For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
  - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32627\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32627\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

## **Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

### ***Purpose***

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

### **Statutory Requirements**

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

**LEA-wide and Schoolwide Actions**

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**For School Districts Only**

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Requirements and Instructions**

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

**Projected Additional 15 percent LCFF Concentration Grant**

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year**

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**LCFF Carryover — Percentage**

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar**

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

**Total Percentage to Increase or Improve Services for the Coming School Year**

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**Required Descriptions:**

**LEA-wide and Schoolwide Actions**

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis**

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

**Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

**Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

**How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

## Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

### ***Total Planned Expenditures Table***

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
  - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
  - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## ***Contributing Actions Table***

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## ***Annual Update Table***

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## ***Contributing Actions Annual Update Table***

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## ***LCFF Carryover Table***

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## ***Calculations in the Action Tables***

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### **Contributing Actions Table**

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### **Contributing Actions Annual Update Table**

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

## **LCFF Carryover Table**

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education  
November 2024
